Miners Online Information for Students
2025-26

Courses Offered:

Park City High School offers a small selection of online courses for Park City High School students. The course options could vary from year to year. This school year, we are offering Exploring Computer Science, Financial Literacy, Health and PE courses, U.S. Government, and U.S. History.

A limited selection of courses may be offered in the summer, but there's no guarantee.

Registration:

To enroll in Miners Online courses, students must see their counselor. The courses will be added to the student's class schedule in PowerSchool in the "ON" period, and students will do their coursework in Canvas.

Courses are available by quarter content (.25 credit). Each quarter content is offered every quarter.

A content = Q1 curriculum
B content = Q2 curriculum
C content = Q3 curriculum
D content = Q4 curriculum

Courses cannot be added after midterm. It would be extremely difficult for students to successfully or meaningfully complete the content in the limited time left in the quarter.

Term Dates, Due Dates, and Deadlines:

Miners Online courses follow the PCHS quarter term calendar:

Q1 08/18/2025 – 10/24/2025
Q2 10/27/2025 – 01/09/2026
Q3 01/12/2026 – 03/19/2026
Q4 03/23/2026 – 06/05/2026

The purpose of online courses is to allow students to work at their own pace. However, the courses are NOT open-ended. Each course ends on the last day of the quarter. The deadline for all assignments and final exams is the last day of the quarter. There are NO extensions.

Teachers provide assignment due dates as a pacing guide. Students may submit work after an assignment due date, but it must be within that term. Students should be mindful of their teacher's time and not submit everything the last week of the quarter.

Proctored Final Exam:

Each quarter content has an in-person proctored final exam. Students can take the final exam when the content's coursework is complete. Final exams will be the last week of the quarter, the deadline is the last day of the quarter. Final exam information and the sign-up link will be provided in Canvas.

Communication:

Students are expected to take ownership of their learning in an online environment. Students are responsible for contacting their teacher if they need additional support or clarification throughout the course. If students are having technical issues with their laptop or Canvas, they are responsible for communicating with their teacher, counselor, and/or tech support to get the issue resolved in a timely manner.

Teachers are expected to send students weekly updates via Canvas/email regarding upcoming deadlines, reminders, final exams, etc. Teachers are expected to offer weekly in-person office hours for students to receive additional support. Contact the teacher for their office hours.

Grading:

Teachers are expected to update their grades in Canvas and PowerSchool at least once per week. At the end of the quarter, the final quarter grade in the teacher's gradebook is the grade that will be recorded on the student's transcript.

Miners Online courses are graded using the standard letter grade grading scale:

93-100 A	80-82 B-	67-69 D+
90-92 A-	77-79 C+	63-66 D
87-89 B+	73-76 C	60-62 D-
83-86 B	70-72 C-	0-59 F

If a student receives a final grade of F in a content, they may choose to repeat it for a better grade. After the better grade is recorded, the F will be removed. Students may re-enroll in the failed content by contacting their counselor. NOTE: Content/coursework from the previous Canvas enrollment will not be accessible. Students must complete all the work again.
