

# FACULTY 1975–80

What sets Groton School apart is its world-class faculty. Every student can recall a time when a Groton teacher expanded their thinking, inspired them during a lesson, or supported them during a difficult time. By 1980, the gender ratio of faculty was almost equal and would continue to grow in favor of female faculty. Below are the faculty who oversaw the transition to coeducation from 1975–80.

## Before 1975

1. Charles Alexander — Classics
2. David Bannard — Math
