

# PORTRAIT *of a* LEARNER COMPETENCIES

## CRITICAL THINKING

- Analyze and evaluate information from multiple sources by applying content knowledge, personal experience, and insights from others to build an informed evidence base.
- Adapt thinking by incorporating feedback, reflecting on learning, and revising ideas when presented with new information.
- Apply disciplined thinking informed by evidence and diverse perspectives.
- Interpret and synthesize diverse perspectives and justify decisions through logical reasoning.

## COLLABORATION

- Seek help when needed.
- Share roles and responsibilities to achieve common goals.
- Demonstrate curiosity, respect, and investment in others' perspectives.
- Be flexible in one's thinking and open minded to feedback.

## COMMUNICATION

- Self advocate and express ideas clearly and confidently using various means of communication.
- Listen actively to understand what others mean, believe, and feel.
- Adjust communication based on audience and goals.

## GLOBAL CITIZENS

- Value and embrace diverse cultures and backgrounds through mutual respect and open dialogue.
- Demonstrate awareness and respect to connect with another person's opinions, experiences, and cultures.
- Take informed and responsible action to promote equity, peace, and sustainability in both local and global contexts.

## PERSEVERANCE

- Understand that failure is a normal part of success.
- Learn from both positive and negative feedback and remain flexible to making needed changes.
- Listen to, understand, and discuss different opinions to reach shared solutions.
- Demonstrate flexibility to successfully adapt to changing priorities, roles, and uncertain situations.

## LEARNER'S MINDSET

- Show confidence in the ability to learn and grow, even when faced with challenges.
- Reflect on learning and use input from others to improve and move forward.
- Ask questions, take risks, explore new ideas, and stay open to learning from different people and perspectives.
