

Hello! My name is Christine Pemble and I am excited to be joining the Rabbit Creek team as the new health teacher. This is my 17th year teaching in both Arizona and Alaska where I have taught kindergarten through sixth grade in special education. Health class will include engaging activities and interactions to provide a beneficial learning environment that will help students learn. I want students to have a positive experience at school academically, socially and emotionally. Please feel free to reach out for any questions or concerns about health class.
