A Note From Your CIS Site Coordinator…

Attendance & Academic Success

Attendance is more than just showing up. It is the gateway to learning. Students who attend regularly are more likely to succeed in reading and math, and less likely to fall behind or be held back.

Attendance fact:
Missing just 10% of the school year—about 18 days total or just 2 per month—is known as chronic absence and can seriously affect academic performance, even for strong students.

Let's help students build confidence by being present and prepared. If there's a barrier preventing regular attendance, I can work with you on a solution.
