

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Lammersville Joint Unified School District

CDS Code: 3976760

School Year: 2025-26

LEA contact information:

Heather Sharp, Assistant Superintendent, Curriculum & Instruction

Gloria Grijalva, Assistant Superintendent, Business Services

knicholas@lammersvilleusd.net

(209) 836-7400

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

This chart shows the total general purpose revenue Lammersville Joint Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Lammersville Joint Unified School District is \$112,076,679, of which \$95,550,402 is Local Control Funding Formula (LCFF), \$10,247,162 is other state funds, \$4,990,062 is local funds, and \$1,289,053 is federal funds. Of the \$95,550,402 in LCFF

Funds, \$3,659,948 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The charts in the Budget Overview for Parents are automatically generated based on your updates in the input form of the standalone template in DTS. There is no need to insert images.

Please contact DTS if you would like support with overlapping labels. Thank you!

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Lammersville Joint Unified School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Lammersville Joint Unified School District plans to spend \$121,249,825 for the 2025-26 school year. Of that amount, \$53,774,025 is tied to actions/services in the LCAP and \$67,475,800 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General fund budget expenditures not shown in the LCAP are general operating costs such as maintenance, facilities and contracts with service providers. Most funding pass through to school sites such as Lottery, supply and athletic allocations and many other costs are not included. Salaries and benefits for administrators, managers, non-academic support staff and substitutes are also not included in the plan. Finally, contributions to other funds are not included in the LCAP

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Lammersville Joint Unified School District is projecting it will receive \$3,659,948 based on the enrollment of foster youth, English learner, and low-income students. Lammersville Joint Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Lammersville Joint Unified School District plans to spend \$4,364,782 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Lammersville Joint Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Lammersville Joint Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Lammersville Joint Unified School District's LCAP budgeted \$4,033,812 for planned actions to increase or improve services for high needs students. Lammersville Joint Unified School District actually spent \$4,045,053 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$11,241 had the following impact on Lammersville Joint Unified School District's ability to increase or improve services for high needs students:

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Lammersville Joint Unified School District (LUSD) is in the city of Mountain House which was incorporated in 2024 and is located in the far western, rural portion of San Joaquin County. Originally founded in 1876, it consists of six TK-8 elementary schools, two K-8 elementary schools and one high school. In 2018-19, LUSD was recognized as a Distinguished School District and Mountain House High School was recognized as a Distinguished School. In 2022, Lammersville Elementary and Hansen Elementary were recognized as California Distinguished Schools. In 2025, Bethany Elementary, and Cordes Elementary were also recognized as a Distinguished School. Additionally, in 2024, Mountain House High School was recognized as a National Blue-Ribbon School. LUSD has approximately 391 teachers and 8,038 students from diverse backgrounds in the 2024-25 school year. There has been substantial residential development in the District in recent years, with correspondingly substantial increases in enrollment. Much of the District’s historical enrollment hails from farms, dairies, or small ranches. More recently the development is suburban single- and multi-family residences.

The quality of the District’s Educational Program has attracted a moderate number of inter district transfer students. Enrollment is demographically diverse, with 2024 CA Dashboard data indicating 10.7% of English Learners (EL) and over 36 languages spoken by district students. Overall, the student population is comprised of 13.1% Hispanic/Latino, 11.6% Low Income, 6.5% Students with Disabilities, 0% Foster Youth, 0.1% Homeless, 3.9% African American, 55.9% Asian, 6.3% Filipino, 11.8% White, and 5.4% reporting Two or More Races.

The Mission of the Lammersville Unified School District, as a collaborative partnership of families, community members and staff, is to graduate all students with the knowledge and ability to make good choices, to act responsibly, to eventually enter the workforce in a profession of their choice, and to continue lifelong learning. To accomplish this, LUSD will celebrate literacy, problem solving, and building a successful future by ensuring that all first graders can read and comprehend at grade level, that all fourth graders can read and write at grade level, that all eighth graders are proficient or proficiency prepared for Algebra, and that all twelfth graders graduate college and career ready.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Lammersville Joint Unified has demonstrated both successes and challenges in its annual performance, as reflected in the California School Dashboard and local data.

Successes:

Academic Achievement: The district has shown strong performance in both English Language Arts (ELA) and Mathematics. In ELA, the district is 60.6 points above the standard, with an increase of 4.4 points. In Mathematics, the district is 50.4 points above the standard. These results can be connected to LCAP actions focused on providing high-quality instructional materials and support, as well as professional development for teachers in implementing academic standards. The LCAP emphasizes a full implementation and sustainability approach to providing instructional materials aligned with adopted academic standards.

Graduation Rate: The district boasts a high graduation rate of 98.6%. This success aligns with LCAP goals focused on ensuring access to a broad course of study and providing support for students to meet graduation requirements.

Chronic Absenteeism: There has been a notable decrease in chronic absenteeism, from 10.5% in 2023 to 7.4% in 2024. This improvement can be attributed to the district's focus on creating a positive school climate and implementing programs aimed at improving student connectedness, as highlighted in the local climate survey data and the emphasis on Positive Behavior Interventions and Supports (PBIS) in the LCAP.

Challenges and Areas for Improvement:

English Learner Progress: While the district has strengths, there are areas needing attention. English Learner Progress declined by 2%, with 53.9% of students making progress. This highlights a need for continued emphasis on actions within the LCAP related to English Language Development, including providing support for staff to improve instruction aligned to English Language Arts Standards. The district plans to address this through additional support and intervention, regrouping, and designated ELD time, as outlined in the LCAP.

Suspension Rates: The suspension rate increased by 0.4%, with 1.9% of students being suspended. Notably, certain student groups experience higher suspension rates, including African American students (6.8%) and students with disabilities (5%). The district is focusing on this through PBIS and restorative practices.

Disparities in Outcomes: The data reveals disparities in outcomes for certain student groups. For example, in ELA, students with disabilities are 77 points below the standard. In Mathematics, several student groups are performing below the standard, including African American students (42.3 points below) and socioeconomically disadvantaged students (26.8 points below). These gaps are being addressed in the LCAP through targeted support and intervention strategies, as well as monitoring enrollment by focus group to ensure access to a broad course of study.

Future Directions:

To further improve outcomes, the district will:

Enhance support for English Learners: By strengthening implementation of English Language Development strategies and providing targeted interventions.

Strengthen PBIS and restorative practices: To address suspension rates and improve school climate, with a focus on equitable implementation across all student groups.

Focus on targeted support for underperforming student groups: By providing additional resources and interventions for students with disabilities, African American students, and socioeconomically disadvantaged students.

Continue to monitor student progress and adjust strategies: Using data to inform decision-making and ensure continuous improvement. The district will also utilize an additional survey method to capture information at different times during the academic year

In alignment with the district's commitment to addressing the ongoing impacts of the COVID-19 pandemic, Lammersville Joint Unified School District is utilizing the Learning Recovery Emergency Block Grant (LREBG) to support student learning, mental health, and overall well-being. The balance of the funds is \$3,131,236. A comprehensive needs assessment was conducted to inform the use of these funds. The needs assessment highlighted the necessity for additional support in literacy, particularly in early grades, and the importance of addressing barriers to learning, including social-emotional well-being.

To effectively respond to these identified needs, the district will implement Action 1.11, "Additional Interventions and Support." This action will strategically utilize LREBG funds for curricular materials and support, additional staffing, and summer school programs. This approach allows for flexibility in addressing specific student needs as they evolve, while remaining focused on the key areas identified in the needs assessment. This action directly aligns with the identified needs in the assessment, specifically the need to provide early intervention and literacy programs, integrate pupil supports to address other barriers to learning, and provide staff supports and training. Additionally, evidence-based research shows that increasing opportunities and support for students during the summer session outside of the regular school year helps to prevent learning loss and increases the ability for students to retain academic knowledge and even improve academic outcomes for students who have been poorly performing, a factor that can positively influence Metric 5.A. In addition, the district will

implement Action 1.12 to support students experiencing homelessness. This action utilizes LREBG funding to provide resources that address immediate needs such as school supplies, transportation, food, and clothing—critical supports that remove barriers to learning and ensure equitable access to education. Over the three-year grant period, \$10,000 will be allocated each year to sustain this targeted assistance. This action complements the district’s broader recovery strategy by directly supporting vulnerable student populations and ensuring their basic needs are met, reinforcing the overall goals of learning recovery, early intervention, and expanded learning opportunities.

Based on review of the 2023 California School Dashboard data for Lammersville Unified and our school sites, areas of low performance have been identified and actions to address these needs are identified below.

English Language Arts: Wicklund Elementary (Students with Disabilities) LUSD (Students with Disabilities) (Action 1.8)

English Learner Progress: Sebastian Questa Elementary (English Learners) (Action 1.9)

Chronic Absenteeism: Altamont Elementary (English Learners, Hispanic, Students with Disabilities); Sebastian Questa Elementary (African American, Socioeconomically Disadvantaged); (Action. 1.6)

Suspension: Altamont Elementary (African American); Hanson Elementary (African American); Lammersville Elementary (white); Sebastian Questa Elementary (Students with Disabilities); (Action 2.3)

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Based on the 2024 California Dashboard, Lammersville Joint Unified School District is eligible for Differentiated Assistance for suspension rates and academic performance for students with disabilities. Lammersville Joint Unified School District worked with the San Joaquin County Office of Education and reviewed performance data on the state and local indicators on the CA Dashboard to identify strengths and weaknesses. The following strengths and areas of growth were identified: The district has strengths in academic achievement, demonstrating strong performance in both ELA and Mathematics, with the district scoring 60.6 points above distance from standard in ELA and 50.4 points above distance from standard in Mathematics. The district also has a high graduation rate of 98.6%.

Areas of growth include the need to improve English Learner Progress, as it declined by 2%, and to address disparities in outcomes for student groups, particularly students with disabilities who are 77points below distance from standard in ELA. Students with disabilities also have an increased suspension rate of 2.4% with 5% suspended at least one day as well as African American students with an increase of 3.4% and 6.8% suspended at least one day. Through targeted technical assistance, it was determined to refine our focus on improving suspension rates and academic performance for students with disabilities. Lammersville Joint Unified School District will continue to work with the SJCOE to implement a professional development plan focusing on effective classroom strategies for managing student behavior, including restorative practices, Crisis Prevention Intervention (CPI), and other behavior management training for teachers. Additional steps

being taken to support this include providing ongoing coaching and mentoring for teachers in implementing restorative practices, offering specific training on de-escalation techniques for students with disabilities, and implementing a system for tracking and analyzing behavior data to inform interventions. These efforts are supported in action 2.3 of the LCAP, which details plans to train teachers on effective classroom strategies for managing student behavior.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Lammersville has no schools identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers Bargaining Units Other School Personnel	School site staff meetings (annually) School Site Council (annually) District Advisory Committee Meetings (3 annually) District English Learner Advisory Committee (3 annually) Electronic survey- teachers (Fall)
Principals Administrators	Cabinet meetings (weekly) Council of Directors meetings (2 times a month) Administrator meetings (2 times a year) District Advisory Committee Meetings (3 annually) District English Learner Advisory Committee (4 annually)
Parents Families Community Members	Monthly School Foundation meetings (annually) School Site Council (annually) English Learner Advisory Committee (3 annually) Electronic survey (Fall) District Advisory Committee Meetings (3 annually) District English Learner Advisory Committee (4 annually) District Parent Advisory Committee (3 annually)
Students	Student Leadership clubs Electronic surveys (Fall)

Educational Partner(s)	Process for Engagement
SELPA	SELPA program specialist involved in meeting to review needs and goals for Special Education students and how these are addressed in LCAP.
LUSD Governing Board	LCAP Mid-Year Report to LUSD Governing Board (February) LCAP Public Hearing (June) LCAP Presentation for Adoption & Presentation of the Local Indicators (June)

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Throughout the year-long engagement process, Lammersville Joint Unified School District actively collaborated with educational partners to review and refine the LCAP. By sharing draft goals, metrics, and actions—and examining student outcome data in areas such as academic achievement, behavior, and attendance—partners were given meaningful opportunities to provide feedback rooted in both community insight and data analysis. As a result, this year’s plan reflects a more responsive and targeted approach to student and family needs. Educational partners consistently emphasized the importance of increased academic and emotional supports, clearer communication regarding student services, and expanded access to enrichment opportunities. In response, new actions were added—such as Action 1.12, which allocates LREBG funds to support students experiencing homelessness by providing essential resources—and existing actions were strengthened or adjusted to reflect shifting priorities. For example, resources were reallocated within Action 1.11 to expand summer learning and intervention services. Partner feedback also drove enhancements in English Learner supports and reclassification efforts, leading to clearer program descriptions and increased family engagement strategies in Goal 2. Additionally, the desire for improved communication and more inclusive feedback channels prompted increased use of digital tools and multilingual outreach, which are now embedded across actions in Goals 3 and 4. This iterative process not only increased transparency but also ensured that the LCAP remains a living document, shaped by the voices of those it is designed to serve. The resulting plan is stronger, more equitable, and better aligned with the district’s mission to meet the evolving needs of all students and families.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Systematic Closure of the Opportunity Gaps: All students will graduate the LUSD school system College and Career ready through a coordinated/articulated instructional program that teaches each student the skills of communication, citizenship, critical thinking, collaboration, and creativity. Technology-focused facilities and programs will be a priority with the intent of creating a district-wide 1:1 learning environment.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal was developed with input from all educational partners, who affirmed the need for students to graduate with technology skills requisite to today’s college and career opportunities. Furthermore, all educational partners believe students should leave LUSD with communication, citizenship, critical thinking, collaboration and creativity skills to contribute thoughtfully as a citizen of our society. The actions within this goal are designed to promote student achievement by assessing student qualitative and quantitative data, followed by a rigorous analysis and action. Staff will monitor and evaluate actions by collecting and analyzing specific data including attendance, drop out rates, suspension rates, and formative and summative assessments designed to identify student success in real time. Particular focus is given to students who have not met standard and unduplicated pupils: EL, Socioeconomically disadvantaged and foster students. In addition, educational partner feedback will be solicited throughout the year, providing evidence of the impact of the actions on student outcomes. The goal will be achieved when the actions and metrics and desired outcomes enumerated below are fully implemented, analyzed and presented to all educational partners. This goal was created to foster and monitor equitable opportunities and outcomes for all student groups.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The District implemented the planned actions for this goal by monitoring student academic achievement through MAP and CAASPP assessments (Action 1.1), providing specific programs for high school students (Action 1.2), and continuing to implement ELA/ELD and Math curriculum (Action 1.3). The implementation focused on ensuring that students have access to standards-aligned instructional materials and that teachers monitor student progress to guide instruction. In summary, implementing the articulated goal involved assessing student progress, providing targeted support, and maintaining curriculum implementation.

The District experienced notable successes in implementing this goal, particularly in maintaining access to instructional materials and providing various programs for students. One highlight of the implementation process was the continued implementation of CTE programs and Project Lead the Way, contributing to career readiness for students.

The District was able to fully implement 10 out of 10 actions as planned.

The implementation process also faced several challenges. One challenge involved the effective spending of Early College funds within Action 1.7, as the need for this funding was less than anticipated due to student fees for classes not being a significant barrier. Another challenge related to student attendance, addressed in Action 1.6, where encouraging consistent attendance proved difficult due to families leaving the country for extended periods, particularly during holidays, and not always completing independent study contracts. Furthermore, the ongoing challenge of maintaining and hiring qualified teachers, administrative, and support staff, as outlined in Action 1.5, persisted due to the shortage of qualified educators. Finally, the district faces a significant challenge in its efforts to update and adopt English Language Arts curriculum to meet student needs, as detailed in Action 1.3, due to the state of California's delay in adopting and implementing new ELA frameworks.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In reviewing the expenditures for Goal 1, several actions had material differences between budgeted and actual amounts due to fluctuations in staffing costs, operational expenses, and the fulfillment status of planned purchases.

Action 2 experienced a material difference, with actual expenditures totaling \$1,042,237 compared to the budgeted \$1,339,997. This variance is primarily attributed to counselor and EPIC intern salaries being lower than projected. Additionally, while materials and equipment were encumbered, it remains uncertain whether all associated purchase orders will be fulfilled within the fiscal year.

Action 3 also reflected a material difference, with actual costs at \$34,639 versus a budgeted amount of \$57,223. This was due to substitute teacher costs for the Blended Learning Academy exceeding expectations.

For Action 6, actual expenditures were \$35,654 compared to the budgeted \$40,500. This difference was driven by higher-than-anticipated costs associated with the Character Strong social-emotional learning curriculum.

Action 8 showed an increase in actual expenditures, totaling \$342,339, compared to the budgeted \$252,862. This overage was due to higher payroll costs for counselors and coordinators following salary increases, as well as additional expenses related to Chromagraphics services.

Action 9 had lower actual costs of \$497,173 compared to a budgeted \$585,198. This was mainly due to bilingual aide salaries coming in below the original projections.

Lastly, Action 10 exceeded its budgeted amount of \$3,059,353 with actual expenditures of \$3,697,414. The variance reflects increased costs related to salaries in both the Maintenance & Operations and Transportation departments, which were higher than initially anticipated.

Collectively, these material differences reflect a combination of staffing cost variances, unfulfilled purchase orders, and adjustments in operational needs that influenced the financial outcomes for Goal 1.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The District used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

Action: 1.1 - Student Progress Check through Assessments

Effectiveness of Action: 3

Metric: 4.A

Analysis Statement: Analysis Statement: This action focuses on monitoring student academic achievement. Metric 4.A shows growth in ELA for All Students (73.11% to 74.34%) with significant increases for students in specific subgroups such as an increase in Black African American students (48.36% to 50.30%), Hispanic students (50.65% to 53.28%), and Socioeconomically Disadvantaged students (48.65% to 50.98%) and flat progress in Math for All Students (70.32% to 69.49%). This data indicates that the action is effective in tracking student progress and that academic achievement is improving.

Action(s): 1.2 - Specific Programs for the High School Students

Effectiveness of Action(s): 2

Metric(s): 4.A

Analysis Statement: This action provides support to high school students, including credit recovery and programs like AP and CTE. An in-depth analysis of this action reveals its limited effectiveness in directly impacting overall student proficiency as measured by Metric 4.A. While these programs offer valuable opportunities, their influence on the broader CAASPP and CAST scores is not clearly demonstrated. Specifically, while there are increases in the percentage of students meeting or exceeding standards in ELA for some subgroups, there is a decrease for White students (65.43% to 62.65%). Math scores also show a decrease for all students (70.32% to 69.49%) and most subgroups. This suggests that while programs are beneficial, they are not the primary driver for improving overall student performance on standardized assessments, and other factors may be at play.

Action: 1.3 - Implementation of the Common Core State Standards and Curriculum

Effectiveness of Action: 3

Metrics: 1.B & 1.C

Analysis Statement: This action focuses on providing access to standards-aligned curriculum and materials.

Metric 1.B shows that 100% of pupils have access.

Metric 1.C shows that 100% of school facilities are maintained in good repair.

Action: 1.4 - Maintain Career Technical Education (CTE)

Effectiveness of Action: 3

Metric: 7.A

Analysis Statement: This action focuses on providing and maintaining CTE programs. While Metric 7.A is broad, the continued implementation of CTE programs suggests a commitment to providing a broad course of study. Because the data for this metric is lagging,

the full impact of this action may not yet be reflected in current outcomes; however, based on implementation efforts this year, we anticipate measurable growth will be evident as updated data becomes available.

Action: 1.5 - Maintain and Hire Teaching, Administration, and Support Staff

Effectiveness of Action: 2

Metric: 1.A

Analysis Statement: This action focuses on ensuring that teachers are appropriately assigned and fully credentialed for the subjects and pupils they are teaching. Metric 1.A directly measures this, and data shows a decline from the 2023 baseline of 84.2% to 75.4% in 2024, an 8.8 percentage point drop. Given that the target for Year 3 is 86%, this decline indicates a need for increased focus on recruitment and credentialing efforts. While adequate staffing remains essential to the implementation of all other actions in Goal 1, the current trend suggests that this area requires additional support and intervention to meet the target and ensure consistent instructional quality.

Action: 1.6 - Incentives for Increasing Student Attendance

Effectiveness of Action: 3

Metrics: 5.A & 5.B

Analysis Statement: This action focuses on improving student attendance.

Metric 5.A shows an increase in pupils attending school daily (95.4% to 96.2%).

Metric 5.B shows a decrease in chronically absent pupils (10.3% to 7.6%).

These improvements indicate that the action is effective in improving student attendance.

Action: 1.7 – Partnership with San Joaquin Delta College

Effectiveness of Action: 1

Metric: 7.A

Analysis Statement:

This action originally aimed to expand advanced educational opportunities for students by supporting their enrollment in San Joaquin Delta College courses, with a focus on addressing barriers such as access to books and supplies. However, during the 2023–24 school year, significant shifts at Delta College—specifically, the transition to digital course materials and the elimination of associated costs—removed the primary obstacles this action sought to address. As a result, the district determined that the standalone action and associated funding were no longer necessary. To improve efficiency and reflect a more accurate picture of how students are being supported in accessing postsecondary opportunities, this action was discontinued and merged into Action 1.2, which takes a broader and more integrated approach to academic counseling, college and career readiness, and dual enrollment. This decision aligns with our commitment to refining the LCAP in response to evolving student needs and system conditions, and it demonstrates responsible use of resources to maximize impact across the plan.

Action: 1.8 - Provide Strategic Support to meet Academic needs of the Students

Effectiveness of Action: 3

Metric: 4.A

Analysis Statement: This action focuses on providing academic support and interventions. As mentioned in Action 1.1's analysis, Metric 4.A shows growth in ELA scores. This suggests that the interventions and support provided in this action are effective. While our overall ELA scores increased, as well as with our subgroups of Black/African American, Hispanic, Socioeconomically disadvantaged students, our

English Learners, Students with Disabilities, and Long Term English Learners decreased. Our students in Black/African American, Hispanic, and socioeconomically disadvantaged and white demographic groups exceeded overall scores for these groups at the state and county levels. Our scores for math showed a non statistically significant drop overall. Scores in science grew by 1.5% with our white demographic growing by 9%.

Action: 1.9 - Additional Support for English Learners (ELs), Foster, and Low Income Students

Effectiveness of Action: 2

Metric: 4.A

Analysis Statement: This action is designed to provide targeted academic support for English Learners, Foster Youth, and Low-Income students through interventions and expanded instructional resources. While CAASPP results for 2024 indicate some gains in ELA and Math for key subgroups, including Hispanic and Socioeconomically Disadvantaged students, English Learners—especially Long Term English Learners—continue to perform significantly below their peers.

It's important to note that state testing data is a lagging indicator, and much of the support initiated in Year 1 of the LCAP (including targeted staffing, expanded tutoring, and ELD support) is not yet reflected in those results. Based on the intensity of services provided this year, we anticipate a stronger upward trend in outcomes as implementation continues into Year 2 and beyond. Adjustments to instructional strategies and increased progress monitoring are being planned to improve effectiveness for EL students in particular.

Action: 1.10 - Provide adequate facilities and instructional materials

Effectiveness of Action: 3

Metrics: 1.B & 1.C

Analysis Statement: This action focuses on providing adequate facilities and instructional materials.

Metric 1.B shows that 100% of pupils have access to instructional materials.

Metric 1.C shows that 100% of facilities are in good repair.

These metrics indicate that the action is effective in maintaining these standards.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of our ongoing reflection and analysis of implementation during Year 1, several key changes have been made to ensure that the plan more accurately reflects our work and priorities moving forward.

Two new actions—Action 1.11 and Action 1.12—have been added under Goal 1. These actions are focused on providing additional academic interventions and support and responding to identified student needs through the effective use of Learning Recovery Emergency Block Grant (LREBG) funds. These additions are intended to enhance learning recovery efforts and expand access to targeted supports for students who continue to demonstrate significant academic gaps.

We have also added a new metric, Metric 1.A, to better measure the impact of Action 1.5, which focuses on early literacy. This addition provides a more accurate and measurable way to assess outcomes associated with this foundational area of student learning.

In recognition of persistent achievement gaps and underperformance, Long Term English Learners (LTELs) have been identified as a specific focus group within our LCAP. As a result, LTEL outcomes have been intentionally embedded across relevant metrics to ensure ongoing monitoring and targeted support during both the planning and implementation phases. Specifically, Metrics 4.C (academic performance on state assessments), 4.D (progress toward English language proficiency), and 4.H (reclassification rate) are being used to evaluate the effectiveness of actions aimed at improving outcomes for LTELs. These metrics provide a comprehensive view of both language development and academic achievement, allowing for more responsive and data-informed decision-making.

During our review, we also discovered that the baseline and three-year target values reported for Metric 5.A were incorrectly entered in the original plan. We have since corrected these figures to accurately reflect the true baseline performance and to set a more realistic and meaningful three-year target for this metric.

Lastly, based on our implementation experience, we are combining Action 1.7 with Action 1.2. The work being carried out under both actions is overlapping significantly in terms of purpose and strategy, and consolidating them allows for a more coherent and efficient alignment of resources and efforts in supporting students with social-emotional and behavioral needs.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Student Progress Check through Assessments	<p>Monitor students' academic achievement on MAP and CAASPP assessments.</p> <p>Monitor academic progress of students in significant student groups through CAASPP and MAP Assessment scores: Hispanic, African American, English Learners, Low Income, Foster Youth, and Students with Disabilities, and Long Term English Learners.</p> <p>CAASPP, MAP and curriculum embedded assessment scores will be used to guide instruction and individualized strategic support through ELA/ELD Curriculum Materials and Math Units.</p> <p>CAASPP, MAP, and other district identified assessments to get a baseline data on students' Math readiness in the beginning of the school year</p> <p>GATE Assessment for student identification.</p>	\$51,377.00	No

Action #	Title	Description	Total Funds	Contributing
1.2	Specific Programs for the High School Students and Partnership with San Joaquin Delta College	<p>Use grades, CAASPP, and MAP scores to determine high school students needing support to complete the A-G requirements</p> <p>Additional academic support to students through Success Period</p> <p>Credit recovery opportunity during Summer School for the high school students who received a D or an F Grade</p> <p>Alternative Education Program for students for credit recovery</p> <p>Online and Hybrid programs to provide alternative ways for students to receive education</p> <p>AP, PSAT, SAT, ACT assessments and Early College Program for the high school students to prepare for college</p> <p>Project Lead the Way and Career Pathways to prepare students for careers</p> <p>Continue Partnership with San Joaquin Delta College to offer advanced core and elective classes for the high school students to receive high school and college credit. Provide financial assistance for tuition or materials to unduplicated students.</p> <p>Additional Career Technical Education classes for the high school students to receive Certification at Delta College.</p> <p>Utilize counselors to promote the partnership and access to San Joaquin Delta College Early College Program.</p>	\$1,091,516.00	Yes
1.3	Implementation of the Common Core State	Continue to implement ELA/ELD curriculum to provide students access to the Common Core State Standards (CCSS)	\$48,723.00	No

Action #	Title	Description	Total Funds	Contributing
	Standards and Curriculum	<p>Continue implementation of the Math Units to provide students access to the Common Core State Standards (CCSS)</p> <p>Provide curriculum and adequate instructional materials to all students including additional e-books for upper grades students</p>		
1.4	Maintain Career Technical Education (CTE)	<p>Institutionalize High School 9-12 grades CTE Programs through Project Lead the Way (PLTW): - Biomedical Sciences, Engineering, Computer Science, and other programs such as Culinary Arts and CTE Pathways.</p> <p>Continue implementation of CTE program at 6-8 grade levels through PLTW- Robotics and Automation, Design and Modeling, Electrons, Green Architect, and Medical Detectives pilot</p> <p>Institutionalize CTE through Project Lead the Way (PLTW): K5 grades PLTW- Introductory Launch Program for some of the classes, and provide iPads and other technology</p> <p>Additional pathways include: visual and performing arts, academic, sports, and other extracurricular opportunities to the students</p>	\$521,596.00	No
1.5	Maintain and Hire Teaching, Administration, and Support Staff	<p>Teachers are appropriately assigned and fully credentialed in the subject areas, and for the pupils they are teaching</p> <p>Instructional Assistants are highly qualified as measured by their education level or proficiency exam</p> <p>Provide accurate ratio of staff members to meet students' needs</p>	\$40,425,518.00	No

Action #	Title	Description	Total Funds	Contributing
1.6	Incentives for Increasing Student Attendance	Attendance incentives to whole class, individual students, and schoolwide to increase student attendance and decrease drop-out rates	\$51,055.00	No
1.7	Action Combined with 1.2	Action Combined with 1.2		
1.8	Provide Strategic Support to meet Academic needs of the Students	<p>Identification of student achievement goals with Measurable Reading at 1st, Writing at 4th, Math at 8th and College & Career Ready at 12th grade</p> <p>Academic support, interventions, and enrichment through programs such as Edgenuity online, etc.</p> <p>After school interventions for Low Income, English Learners, and Foster Youth as needed</p> <p>Response to Intervention (RTI) program for at risk students - Foster Youth</p> <p>Additional academic support with D and F grades through SUCCESS! period</p>	\$459,862.00	Yes
1.9	Additional Support for English Learners (ELs), Foster, and Low Income Students	<p>Small group instruction for students in the focus area subgroups during and after school</p> <p>English Language Performance Assessments for California (ELPAC) to monitor EL progress</p> <p>English Language Development (ELD) and interventions during class and during elective time to address the academic needs of English Learners and Long Term English Learners</p> <p>Additional support to English Learners including Long Term English Learners by Bilingual Instructional Assistant through push in</p>	\$878,256.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Redesignation of the students and monitoring of student progress through MAP data and ongoing in class performance</p> <p>College and career counseling to meet the needs of English Learner, low income and foster youth</p>		
1.10	Provide adequate facilities and instructional materials	<p>Ongoing monitoring and maintenance of the facilities</p> <p>Provide adequate instructional materials and resources for all students</p>	\$3,493,450.00	No
1.11	Interventions and support	<p>This action is specifically designed to utilize Learning Recovery Emergency Block Grant (LREBG) funding to accelerate learning recovery and address learning recovery gaps. To achieve this, the action will provide additional interventions and support for students through various means, including staffing, materials, and support services. Summer school programs will be offered to provide targeted instructional time and support for students needing academic assistance. Intervention teachers will be employed to provide focused support and interventions to students, particularly in the areas of literacy and mathematics. In addition to tracking student academic outcomes, the district will monitor Metric 5.A (Average Daily Attendance) as an indicator of student engagement and access to learning opportunities. Research shows that improved attendance can reflect the impact of targeted interventions in supporting student re-engagement and addressing barriers to participation in core instruction and extended learning time. This metric will complement academic progress monitoring and help assess the broader effectiveness of learning recovery efforts.</p> <p>In Year 1, we will spend \$498,000 LREBG, In Year 2, we will spend \$1,332,761. In Year 3, we will spend \$1,289,289.</p>	\$1,278,584.00	No

Action #	Title	Description	Total Funds	Contributing
1.12	Additional Needs	This action will utilize Learning Recovery Emergency Block Grant (LREBG) funding to support students experiencing homelessness by providing resources to address immediate needs, such as school supplies, transportation, food, and clothing. In Year 1, we will spend \$12,000. In Year 2, we will spend \$12,000. In Year 3, we will spend \$12,000. The effectiveness of this action will be measured in part by Metric 5.A, which tracks student attendance rates. Research shows that by addressing basic needs and reducing barriers to school access, the district aims to improve consistent school attendance for students experiencing homelessness, thereby supporting their overall academic engagement and success.	\$12,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Instruction and Curriculum Efficacy: Lammersville Unified School District is committed to the systematic development of instructional leadership and teaching excellence in all classrooms by identifying, implementing, and institutionalizing research validated practices district wide.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 6: School Climate (Engagement)</p>
--

An explanation of why the LEA has developed this goal.

This goal was developed in the spirit of great first time teaching and delivery of exceptional content to all learners. Developing great instructional leaders and teachers is achieved through ongoing improvement; improvement resplendent with professional learning and collaboration for teachers and the leaders of teachers. The basic premis of goal 2 is to realize that all educators can learn and improve their craft. With regular professional learning opportunities, exceptional content and professional development, LUSD believes our educators can provide teaching that is exceptional for all learners. Classroom environment is a critical component of good teaching and as such, continued professional development will aide in the reduction of student behavioral incidents including a reduction in suspensions and expulsions.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The District implemented the planned actions for this goal by providing professional development to staff (Action 2.1), continuous monitoring and improvement of classroom instruction (Action 2.2), focusing on student and staff wellness and safety (Action 2.3), meeting the needs of Low Income, English Learners, and Foster Youth (Action 2.4), and providing 21st-century classroom learning experiences (Action 2.5). The implementation focused on improving instructional leadership and teaching excellence in all classrooms by identifying, implementing, and

institutionalizing research-validated practices district-wide. In summary, implementing the articulated goal involved providing professional learning, monitoring instruction, supporting wellness and safety, addressing the needs of specific student groups, and integrating technology in the classroom.

The District experienced notable successes in implementing this goal, particularly in providing access to technology and maintaining a focus on wellness. One highlight of the implementation process was the continued use of technology tools in the K-8 grades to support learning in Math and ELA. 5 of 5 actions were implemented as described in the LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Within Goal 2, two actions demonstrated material differences between budgeted and actual expenditures due to adjustments in staffing allocations and lower-than-expected costs for professional development activities.

Action 2 was originally budgeted at \$65,005, with actual expenditures totaling \$20,456. This variance is primarily due to lower costs associated with substitute coverage for the district's "Walking and Talking" professional development sessions. Additionally, expenses related to food and hospitality for these trainings were also less than anticipated, contributing further to the overall reduction.

Action 4 also experienced a significant material difference, with actual expenditures amounting to \$566,616 compared to the budgeted \$839,676. The primary reason for this discrepancy is the reallocation of bilingual aide costs. These expenses were initially budgeted under Goal 2 Action 4 but were later moved to Goal 1 Action 9 to align more accurately with the action's intended focus and funding source.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The District used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Two helped make progress towards the District's goal:

Action: 2.1 - Provide Professional Development to Staff

Effectiveness of Action: 3

Metrics: 4.A

Analysis Statement: This action is focused on improving student academic outcomes by strengthening instructional practices through sustained professional development, including support for curriculum implementation, new teacher training, and ongoing collaboration across grade levels and content areas. The metric associated with this action—Metric 4.A—measures student performance on statewide assessments (CAASPP and CAST) as well as alignment to proficiency benchmarks on the MAP assessment.

Year 1 outcomes show modest gains in ELA and CAST performance at the all-student level, with ELA rising from 73.11% to 74.34% and CAST from 59.25% to 60.81%. Math performance showed a slight decline, from 70.32% to 69.49%. Subgroup performance was mixed, with

some increases (e.g., Hispanic students and socioeconomically disadvantaged students in ELA) and several decreases, especially among English Learners and Long-Term English Learners across both ELA and Math. MAP data shows stronger gains, particularly in ELA, where all-student performance increased from 55.82% to 61.17%, surpassing the three-year goal of 61%. Socioeconomically disadvantaged students and Hispanic students also demonstrated notable growth on the MAP assessments, suggesting that mid-year progress monitoring is a helpful tool for informing instruction and interventions in real time. While not all subgroups are on track to meet the three-year goals—especially English Learners and Students with Disabilities—the professional development provided has likely contributed to improved instructional alignment, especially in literacy. Continued work is needed to ensure professional learning includes more targeted strategies for differentiation and language development, particularly to address persistent achievement gaps. As implementation continues into Year 2, instructional coaching, PLC collaboration, and site-based training will remain critical levers for supporting equity and improving outcomes across all student groups.

Action: 2.2 - Continuous Monitoring and Improvement of Classroom Instruction

Effectiveness of Action: 3

Metric(s): 2.A, 2.B

Analysis Statement: This action involves monitoring the implementation of Common Core State Standards through "Walking and Talking Instruction."

Metrics 2.A and 2.B relate to instructional rounds data.

Metric 2.A (Standard Measurable Objectives) shows a change in implementation, with "Meet" decreasing from 53% to 49% and "Exceed" increasing from 26% to 38%.

Metric 2.B (Student Engagement) shows a change in implementation, with "Meet" decreasing from 47% to 39% and "Exceed" increasing from 36% to 46%.

While the "Meet" percentages decreased slightly for both metrics, the significant increase in the "Exceed" percentages indicates a positive shift towards higher-quality implementation. Monitoring classroom instruction is essential for ensuring effective implementation of standards and maintaining a positive learning environment. This action is effective.

Action: 2.3 - Focus on Student and Staff Wellness and Safety

Effectiveness of Action: 2

Metrics: 6.A, 6.B

Analysis Statement: This action focuses on creating a positive school climate through wellness activities, safety programs, anti-bullying efforts, and behavior management training.

Metric 6.A shows a slight increase in the percentage of students who are suspended (1.5% to 1.9%) with slight increases in the target populations of Black/African American, White and students with disabilities.

Metric 6.B shows a decrease in the percentage of students who are expelled (0.04% to 0%). This suggests that the action is effective in maintaining a safe school environment.

Overall, the data suggests that this action is somewhat effective in promoting student and staff wellness and safety.

Action: 2.4 - Meeting the Needs of Low Income, English Learners, and Foster Youth

Effectiveness of Action: 3

Metric(s): 4.A

Analysis Statement: This action is designed to provide direct and embedded supports to unduplicated students—specifically Low Income students, English Learners (ELs), Long-Term English Learners (LTELs), and Foster Youth—through professional development, counseling, academic supports, and bilingual instructional services.

Year 1 CAASPP results show growth in ELA performance for Socioeconomically Disadvantaged students (from 48.65% to 50.98%) and Hispanic students (from 50.65% to 53.28%), while ELs and LTELs experienced notable declines in both ELA and Math. For example, EL ELA performance declined from 32.4% to 28.36%, and LTELs from 17.14% to 12.73%. Similar declines are seen in Math, with ELs dropping nearly 10 percentage points and LTELs by over 11 points.

MAP assessment results present a more nuanced picture. Socioeconomically Disadvantaged students demonstrated strong gains in ELA (from 27.65% to 38.19%), outpacing their three-year target. However, EL and LTEL performance showed mixed results, with slight improvements in Math but declines in ELA, suggesting the need for additional, differentiated support.

It is important to note that much of the data used to measure this action is lagging, and many of the professional development and support systems implemented in Year 1 are expected to yield greater academic impact in Year 2 and beyond. Targeted strategies—including expanded bilingual instructional aide support, career counseling for grades 9–12, and coaching focused on integrated and designated ELD—will continue to be essential for meeting the diverse needs of these student populations.

Action: 2.5 - Provide 21st Century Classroom Learning Experiences through Cutting Edge Technology and Online Curriculum
Effectiveness of Action: 3

Metric(s): 1.b.1

Analysis Statement: This action focuses on providing technology access and integrating technology into the classroom.

Metric 1.b.1 shows that 100% of pupils have 1:1 access to District Chromebooks.

Metric 1.b.1 also shows that 100% of certificated staff have 1:1 access to District devices.

This indicates that the action is effective in providing access to technology.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of reflections on prior practice, there are no changes made to the planned goal, metrics, target outcomes, or actions for the coming year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	21st Century Outcomes and Stakeholder Communication: Lammersville Unified School District will provide its community with a high quality education, fostering positive parent relationships, in a system that is focused on a 21st Century educational program, that supports and includes a rapidly expanding student population.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 3: Parental Involvement (Engagement)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>
--

An explanation of why the LEA has developed this goal.

<p>The actions within this goal are designed to promote staff and student well-being, two way communication with parent/guardian partners and provide a safe and welcoming school environment. Educational partner feedback and data analysis will provide evidence of the impact of the goal and commensurate actions.</p>

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The District implemented the planned actions for this goal by providing cutting-edge technology (Action 3.1), communicating with parents and community members (Action 3.2), increasing parent involvement (Action 3.3), recruiting parents of students in focus groups (Action 3.4), and promoting parent participation of individuals with exceptional needs (Action 3.5). The implementation focused on providing its community with a high-quality education, fostering positive parent relationships, and supporting a 21st-century educational program. In summary, implementing the articulated goal involved utilizing technology, maintaining communication, increasing parent involvement, and supporting diverse needs.

The District experienced notable successes in implementing this goal, particularly in the area of providing cutting-edge technology. One highlight of the implementation process was the maintenance of the parent portal, district, and school websites, and social media presence, contributing to effective communication with the community.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 includes several actions with material differences between budgeted and actual expenditures, primarily due to shifts in site-level spending, increased parent engagement, and rising student service demands.

Action 3, which focused on increasing parent and guardian participation in meetings, had budgeted expenditures of \$4,500 but reported no actual expenditures. It is believed that school sites either did not utilize these specific funds or chose to charge related expenses to other site-level budgets or funding sources.

Action 4 had a budgeted amount of \$7,000 and ended the year with actual expenditures of \$13,327. This increase reflects a significant rise in parent interest and participation in the Loving Solutions and Parent Project programs. The higher-than-expected engagement led to expanded offerings and associated costs beyond the original projection.

Action 5 was budgeted at \$81,200, with actual expenditures totaling \$101,548. The overage in this action is attributed to increased transportation costs for students receiving Special Education services. As the district continues to grow, the number of students requiring specialized transportation has also increased, necessitating additional funding to meet these evolving needs.

These material differences in Goal 3 illustrate the dynamic nature of family engagement and student support services, with site-level discretion and growing service demands influencing actual expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The District used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Three helped make progress towards the District's goal:

Action: 3.1 - Provide Cutting Edge Technology to the Students and Staff by following the Technology Sustainability Plan

Effectiveness of Action: 3

Metric(s): 3.A 3.B 3.C, 3.b.1

Analysis Statement: This action focuses on providing technology access and maintaining digital platforms.

Metric 3.A 3.B 3.C relates to self-reflection ratings on Parent and Family Engagement. The District has maintained a rating of "Full Implementation" across all areas. This indicates that the action is effective in supporting family engagement through technology. Continued work to bring this to full implementation and sustainability over the long term is ongoing.

Metric 3.b.1 shows an increase in logins into the student information system (SIS) by parents/guardians/educational partners from 129,141 to 158,289. This suggests increased engagement with the platform.

Metric 3.b.1 shows a slight decrease in district website visits from 14,616 to 10,181. Despite a slight decrease in district website visits from 14,616 to 10,181, this metric still reflects effective communication, as families appear to be accessing information through more targeted platforms—such as increased SIS logins and ParentSquare communication tools—indicating sustained parent engagement and successful dissemination of information.

Action: 3.2 - Communication with Parents and Community Members

Effectiveness of Action: 3

Metric(s): 3.A 3.B 3.C

Analysis Statement: This action focuses on maintaining various communication channels. As mentioned in Action 3.1's analysis, Metric 3.A shows "Full Implementation" in parent and family engagement. This suggests that the communication methods are effective.

Action: 3.3 - Increase Parent Involvement at the District and Site Level

Effectiveness of Action: 4

Metric(s): 3.C.1 & 6.C

Analysis Statement:

This action focuses on recruiting and involving parents in various committees and programs that promote collaborative decision-making and strengthen school-community partnerships. Metric 3.C.1 shows that 99.82% of parents of students with exceptional needs agree they had input in the IEP process, demonstrating sustained strong engagement in specialized programs. Metric 6.C indicates positive changes in student and parent perceptions of school safety and connectedness. From the baseline to the 2023–2024 survey, student perception of school safety increased by 8.5%, and student connection to school increased by 8.85%. Parent connectedness also showed a significant increase of 13%. While parent perception of safety declined slightly (-1%), it remains high at 88%. Teacher perceptions showed slight decreases in both safety (-3%) and connectedness (-4%), which may indicate areas for further staff engagement efforts, though they continue to remain at relatively high levels overall. The notable gains in student and parent connectedness, along with strong parent participation in the IEP process, suggest this action is effectively strengthening parent involvement and fostering a more inclusive and engaged school climate. Continued attention to staff perceptions will support holistic community involvement.

Action: 3.4 - Recruit parents of students in the Focus Area Student Groups

Effectiveness of Action: 3

Metric(s): 5.B

Analysis Statement: This action focuses on recruiting parents of unduplicated student groups. Metric 5.B shows a decrease in chronically absent pupils (10.3% to 7.6%). In addition to the overall decrease in chronically absent students, several of our subgroup populations decreased their chronic absenteeism rates including Black/African American (16.6% to 13.9%), Hispanic (17% to 13.1%), White (17% to 10%), English Learners (14.1% to 9.5%), Socioeconomically Disadvantaged (20.9% to 17.6%), and Students with Disabilities (16.8% to 14.4%). While chronic absenteeism is influenced by many factors, increased parent involvement can be a contributing factor to improved attendance. This data indicates that the action is effective.

Action: 3.5 - Promote parent participation of individuals with exceptional needs

Effectiveness of Action: 3

Metric(s): 3.c.1

Analysis Statement: This action focuses on supporting parents of students with exceptional needs. As mentioned in Action 3.3's analysis, Metric 3.c.1 shows that 99.82% of parents of students with exceptional needs agree they had input in the IEP process. This demonstrates that the action is effective.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The data source citation in the baseline section was revised to remove reference to the California School Dashboard, as all baseline data was sourced exclusively from DataQuest.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Provide Cutting Edge Technology to the Students and Staff by following the Technology Sustainability Plan	<p>Parent Portal for mass emails and phone calls</p> <p>District and school websites and social media</p> <p>Develop, implement, and revise the Technology Sustainability Plan to update hardware and software based on students' needs</p>	\$227,500.00	No
3.2	Communication with Parents and Community Members	<p>Use of District and site surveys to glean parent and student input</p> <p>Ongoing and consistent communication at the district and site level with the parents and community members</p> <p>Robo calls and mass emails by the district and all school sites for major events</p> <p>Update district and school websites on an ongoing basis</p> <p>Use District Website, video live streaming of meetings, social media, and other ways to communicate with the parents and community members</p>	\$83,328.00	No
3.3	Increase Parent Involvement at the district and site level	<p>Recruit parents and community members to actively participate in:</p> <p>District Advisory Committee (DAC), District Parent Advisory Committee (DPAC), District Facilities Committee, District English Language Advisory Committee (DELAC), District Gate/Arts/ Music Committee, School Site Councils, School Foundations and Parent Teacher Association, Wellness, Safety Committee and other site and district level committees, programs, and events</p>	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
3.4	Recruit parents of students in the Focus Area Student Groups- ELs, Low Income, and Foster Youth	<p>Make additional efforts to recruit parents representing unduplicated pupil groups to serve on by personally inviting parents and holding meetings at different times based on parents' needs:</p> <p>District Advisory Committee (DAC) School Site Council, Parent Organizations such as Foundations, PTA, etc. District English Language Advisory Committee (DELAC) English Language Advisory Committee (ELAC) District Parent Advisory Committee (DPAC) Childcare for parent/guardian workshops/meetings</p>	\$8,000.00	Yes
3.5	Promote parent participation of individuals with exceptional needs	<p>Provide workshops to support education and awareness for students with exceptional needs</p> <p>Individual 504, SST, and/or IEP meetings to monitor progress and develop educational goals and plans for the students</p> <p>Provide Transportation for students with disabilities per their Individualized Educational Program (IEP) and supplement high school activities</p>	\$90,500.00	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2025-26]

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
\$3,659,948	\$0

Professional development to teachers and support staff to monitor and meet the needs of low income, English Learners, and Foster Youth can be applied to address the needs of all students. Counseling services, including career readiness counseling,</p>	<p>4A Percentage of students in grades 3-8 and 11 who meet or exceed standards on Statewide Assessments (CAASPP and CAST) and MAP data 3-11.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>prevent them from independently accessing classroom instruction.</p> <p>ELA All Students - 74.34% English Learners - 28.36% Foster Youth - *% Low Income - 50.98%</p> <p>Math All Students - 64.49% English Learners - 31.36% Foster Youth - *% Low Income - 37.23%</p> <p>CAST: All Students - 60.81% English Learners - 8.62% Foster Youth - *% Low Income - 31.83%</p> <p>Percentage of students in grades 3-11 whose performance on the Measures of Academic Performance (MAP) assessment is equivalent to level 3 or higher on CAASPP</p> <p>ELA All Students - 61.17% English Learners - 13.47% Foster Youth - *% Low Income - 38.19%</p> <p>Math All Students - 64.83% English Learners - 33.76%</p>	<p>provided to English Learners, Foster Youth, and Low Income students can benefit all students. Institutionalizing best practices with consistency across the district is critical for teacher collaboration, efficacy, and student growth which aides in the development of support structures for low income, English Learners, and foster youth. The actions above are the most effective use of funds to meet the academic needs of English Learners, Foster Youth, and Low Income students. The action is being provided on an LEA-wide basis to maximize the impact in increasing positive student outcomes for all students.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Foster Youth - *% Low Income - 34.82%</p> <p>* = less than 30 students</p> <p>Scope: LEA-wide</p>		
<p>3.4</p>	<p>Action: Recruit parents of students in the Focus Area Student Groups- ELs, Low Income, and Foster Youth</p> <p>Need: Parent engagement in the education of students is an important component of building relationships with educational partners and particularly with parents/guardians of English Learners, Foster Youth, and Low Income students. There is a need to make events and/or meetings inviting and accessible to families while reducing any barriers preventing attendance (childcare, language, work schedules, etc.)</p> <p>Percentage of students K-12 identified as chronically absent pupils who are absent from school 10% or more for the total number of days that they are enrolled in school.</p> <p>All Students: 7.6% English Learners: 9.5% Foster Youth - *% Low Income - 17.6%</p>	<p>Parent involvement decreases the chronic absenteeism of English Learners, Foster Youth, and Low Income students. LUSD continuously strives to engage all parents in the educational process of their children. LUSD will provide childcare, so families can attend meetings, consider days and times for events/meetings, and provide language services as needed. The action is being provided on an LEA-wide basis to maximize the impact in increasing parent and guardian participation for all students.</p> <p>The actions above are the most effective use of funds to increase parent engagement of English Learners, Foster Youth, and Low Income students.</p>	<p>5.B</p> <p>Percentage of students K-12 identified as chronically absent pupils who are absent from school 10% or more for the total number of days that they are enrolled in school.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>* = less than 30 students</p> <p>Scope: LEA-wide</p>		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.9	<p>Action: Additional Support for English Learners (ELs), Foster, and Low Income Students</p> <p>Need: There is a disparity between the performance of all students compared to English Learners, foster youth, and low income students. Due to this disparity, small group instruction for students in the focus areas is needed to intervene and address areas of deficit.</p> <p>ELA English Learners - 28.36% Foster Youth - *% Low Income - 50.98%</p> <p>Math English Learners - 31.36%</p>	Individualized support provided by teachers and aides allows students to receive intervention directly related to specific deficits. This includes ELD instruction using Journeys (K-2), ELD instruction (3-6), and Lexia English (3-12). English Learners in high school receive ELD via a specified period in the academic school day using newly adopted ELD curriculum English 3D. After school tutoring for English Learners, Foster students, and low income students.	4A Percentage of students in grades 3-8 and 11 who meet or exceed standards on Statewide Assessments (CAASPP and CAST) and MAP 3-11.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Foster Youth - *% Low Income - 37.23%</p> <p>CAST: English Learners - 8.62% Foster Youth - *% Low Income - 31.83%</p> <p>Percentage of students in grades 3-11 whose performance on the Measures of Academic Performance (MAP) assessment is equivalent to level 3 or higher on CAASPP</p> <p>ELA English Learners 13.47% Foster Youth *% Low Income 38.19%</p> <p>Math English Learners 33.76% Foster Youth *% Low Income 34.82%</p> <p>* = less than 30 students</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>		

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none">• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
