# CFISD Chromebook Week and Device Check

## What is it?

Chromebook Week and Device Check are designed to effectively track Chromebooks and ensure that the device receives all the required updates. In addition, students can submit support tickets for any issues they encounter with their devices.

## When is it?

Chromebook Week and Device Check will be the last full week in September, November, January, and March each school year. Tuesday, Wednesday, and Thursday will be the log-in days. Campuses choose the period or time of day.

## What do we need students to do?

- Power off their devices and then turn them back on.
- Sign into their Google account and the student portal.
- Use the device for at least 15 minutes.
- Submit a support ticket if there are problems with the device.

## What kind of issues require a support ticket?

- Cracked screen
- Touch screen not working correctly
- Device won't connect to the internet
- Headphones won't work when connected
- Cracks on lid or keyboard
- Missing keys
- Won't charge
- Lost charger/case/device

## How can you help?

- Make sure that students bring their devices each day during Chromebook week.
- Help students follow the process of shutting the device down and then logging back into the device.
- Ask students if they have put a support ticket for device issues.

# **SAVE THE DATE!**

## **WARNER PTO** **MEMBER MEETING**

**TUESDAY, OCTOBER 7TH,  
9AM-10:00AM  
IN THE WARNER CAFETERIA**

**ALL PAID  
MEMBERS**

**WELCOME!**

**Teachers, Staff, Parents, and  
Grandparents can join the Warner PTO!**

Come learn about opportunities to get  
involved this school year!

Everyone in attendance will be entered into a drawing for  
**FREE Spike swag!**

## **WE HOPE TO SEE YOU THERE!**

# PBIS Rewards

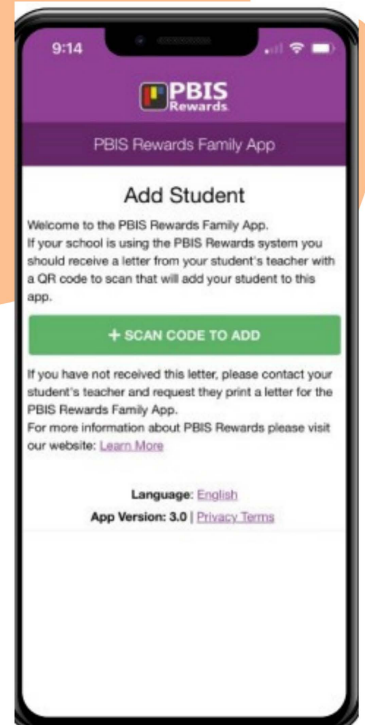

## FAMILY APP INFORMATION

### WHAT IS IT?

As part of the PBIS Rewards suite of apps, the free PBIS Rewards Family App allows parents and guardians to view student point totals, items purchased with points, and upcoming events for which points can be used.

### HOW DO I GET CONNECTED?

Once you download the app onto a smartphone, you can scan a QR code to activate a student in the app. This QR code is unique to each student and is provided to the parent via a letter from the school. The app confirms the QR code, allowing the parent to access to their student's point totals and progress as the school year goes along.

PBIS Rewards Family App Access

Navigate360  
PBIS Rewards

### STEPS TO GET CONNECTED

1

Download the PBIS Rewards Family app on your device.

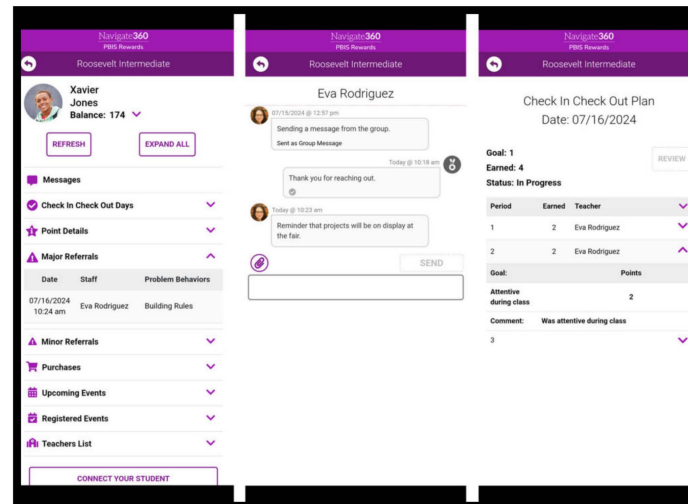

2

Wait for a text or email from your child's teacher which will include a link and QR code to help you get connected to your child.

3

- **Communication**
  - Two-way messaging
- **Points**
  - view teacher comments for points awarded
- Purchases made by student
- Contact information for all teachers so parents/guardians can contact staff directly from the app.

### WHY SHOULD I USE IT?

The PBIS Rewards Family App allows parents and guardians to track the progress and point totals of students. The parent/guardian can view the information for each child. The school can generate paper letters, emails, and/or text messages to connect parents and guardians with their students within the app.

### REMEMBER...

Remember that...

- This is an easy way to communicate with your child's teacher.
- Reinforce good behavior at home.
- Have conversations with your child about the behaviors and decisions that they make at school.

# WHAT BUS DO I RIDE?

## MY RIDE K-12

Download the My Ride K-12 app to receive the most accurate transportation information for your student.

Scan the QR Code below for more information.

Register for an account with  
My Ride K-12

For questions call 713-MYCFBUS (713-692-3287).

# Health Guidance for Going to School

**Showing up to school every day is critical for children's well-being, engagement and learning.**

**Make sure to send children to school if they are:**

- Generally healthy and well.
- Participating in usual day-to-day activities.
- Children can even go to school if they:
  - Have a mild cold, which may include a runny nose and/or cough.
  - Have eye drainage without fever, eye pain or eyelid redness.
  - Have a mild stomachache.
  - Have a mild rash with no other symptoms.
  - Have been fever free for 24 hours without the use of fever-reducing medication.

**Avoid keeping children at home unless they are too sick to participate. Please see the back of this handout for details. Note that in most situations, a health-care provider's note is not needed to return, you can send a parent note.**

**Children may also avoid school due to anxiety (symptoms may include decreased appetite, feeling tired, stomachache, headache, etc). If you are worried that your child may be suffering from anxiety, talk with your child's teacher, the school nurse, counselor or other school staff to discuss the challenge and identify what can help your child stay in school.**

*Please note: This document is not meant to take the place of local health department guidance about contagious illnesses such as Covid-19 and the flu.*

# Reasons to keep me home from school and what needs to happen before I can return

What is my symptom?	When should I stay home and when to seek medical care?	When can I return to school?
<b>Fever</b>	I have a fever of 100.0°F or higher. <b>Seek medical care</b> if I have fever and any of the following: ear pain, sore throat, rash, stomachache or tooth pain.	If I have been fever free for 24 hours without the use of fever-reducing medication and I am feeling better.
<b>Vomiting and/or diarrhea</b>	If I have vomited 2 or more times in the last 24 hours. If my stool is watery and I may not make it to the toilet in time. <b>Seek medical care</b> if I have stomach cramping and fever, I have bloody or black stool, or I am showing signs of dehydration (tired and sleepy, dry mouth and not urinating at least once in the last 8 hours).	If I have not had vomiting and/or diarrhea in the past 24 hours and I am feeling better.
<b>Persistent cough or trouble breathing</b>	<b>Seek medical care</b> if I have a persistent cough, difficulty breathing or trouble catching my breath or if I develop a fever with the cough. These symptoms may be signs of a serious or contagious illness that should be evaluated by a health-care provider.	Once I am feeling better and I have been cleared for return by my health-care provider. If my symptoms were due to asthma, please make sure that I have my breathing medication available to use at school.
<b>Rash</b>	<b>Seek medical care</b> if the rash has blisters, is draining, is painful, looks like bruises and/or if I develop a fever	Once my rash has healed or I have been cleared for return by my health-care provider.
<b>Eye irritation</b>	<b>Seek medical care</b> if I have eye swelling, eye pain, trouble seeing or an eye injury.	Once I am feeling better.
<b>Sore throat</b>	<b>Seek medical care</b> if I have drooling, trouble swallowing or a fever and/or rash.	Once I am feeling better if I have been fever free for 24 hours without fever reducing medication. If I was prescribed an antibiotic by my health-care provider, then I may return 24 hours after the first dose.

*If you don't know whether to send your child to school or have specific concerns regarding your child's health, contact your child's health-care provider, a local urgent care or the school nurse.*

## Pre-K

Bunny Tales- Tues. 10/28

Animal Friends- Wed. 1/14

## Kindergarten

Hedgehog- Tues. 10/21

Guinea Pig- Thurs. 11/13

## 1st Grade

Small Mammals- Wed. 10/22

Eggs and Nests- Wed. 2/25

## 2nd Grade

Insects- Thurs. 9/25

Body Coverings- Thurs. 2/19

## 3rd Grade

Arthropods- Tues. 11/11

Amphibians- Tues. 2/17

## 4th Grade

Reptiles- Wed. 1/28

Bird Structures- Tues. 3/17

## 5th Grade

Mammal Skulls- Tues. 1/20

CSI- Tues. 3/31

# Science Resource Center (SRC Demos)

*Each grade level at Warner gets to enjoy two  
awesome, animal-related demonstrations,  
and we would love for you to help out!*

## How to volunteer...

1. Sign up for a demo and to pick up/drop off the animals and activity supplies at the SRC using the SignUp Genius QR Code above.
2. You **MUST** attend one training session for that demo at the Science Resource Center. Please see the SRC Demo Training Calendar for more info!
3. Be ready to have some fun on demonstration day as we bring the animals to the school and teach students about them!

## Questions?

Email Kristin Jordan at [src@warnerpto.org](mailto:src@warnerpto.org)

A DEMO is a presentation centered on particular animals or scientific concepts. A volunteer is trained in the content and any specific animal handling skills needed for each demo. Demos are grade-level specific. Each demo is presented during a class period (30-50 minutes) to no more than 2 classes of students at a time. Multiple presentations of a demo may be needed in order to accommodate all students in a grade level at a campus.

**Demo trainings listed below are at the Science Resource Center. Adults only, please.**

**Address: SRC building at 11206 Telge Road, Cypress, TX 77429 Phone: 281-897-4004.**

No RSVP needed. Arrive at least 10 minutes early to sign in please.

## Science Demonstration Program, AKA Demos

**Animal Friends:** Pre-K/ECSE (30 minutes). An assortment of live animals (such as a rabbit, bird, turtle, frog, snake or lizard) is used to introduce students to basic animal traits.

**Bunny Tales:** Pre-K/ECSE (30-45 minutes). This Demo is designed to combine a read aloud, discussions about the science connections within the text, and observations of a live rabbit. For the best experience for students, this Demo should be presented to one class (no more than two) at a time. Presentation limited to cooler weather months between October and April.

**Opossums:** Pre-K/ECSE (30 minutes). A stuffed opossum is used to demonstrate the special adaptations and characteristics of this Native American marsupial. Please limit these presentations to fall semester only.

**Guinea Pigs:** Kindergarten (30 minutes). A story, *Guinea Pigs Don't Read Books*, is read and discussed. A live guinea pig is shown. (Pig can be handled.) Please limit these presentations to fall semester only.

**Hedgehog Demo:** Kindergarten (30 minutes). *The Hat* by Jan Brett is read and discussed and a live hedgehog is shown. (Hedgy can be handled.)

**Eggs and Nests Demo:** 1<sup>st</sup> grade (45 minutes). Students observe a variety of eggs as they compare and contrast their physical properties. Children explore a bag of objects to discover if and how the items roll to discover why egg shape is important. A variety of bird nests are displayed for observation. Please limit these presentations to fall semester only.

**Small Mammals:** 1<sup>st</sup> grade (45 minutes). A live chinchilla is used to demonstrate its characteristics, behaviors and adaptations to the environment. Then students compare this mammal's adaptations to those of the hamster. (Animals are not handled.)

**Body Coverings Demo:** 2nd grade (45 minutes). A combination of live animals and teaching aids are used to describe the body coverings of fish, amphibians, reptiles, birds and mammals. Featured animals include a lizard, tree frog, dove and hamster. (Animals are handled.) This was designed to go with the Undercover Lab for which materials are available from SRC.

**Insects:** 2<sup>nd</sup> grade (45 minutes). The insect's place in our ecosystem will be discussed. A sample insect collection will be shown along with live African hissing cockroaches. (Animals may be handled.)

**Snakes:** 2<sup>nd</sup> grade (45 minutes). Students review characteristics of reptiles and learn the unique adaptations of snakes. They will observe several live, non-venomous specimens and various teaching aids. Featured animals include the Trans Pecos rat snake, gray banded king snake and a coral mimic. (Animals are handled.)

## Science Demonstration Program, AKA Demos

**Amphibians:** 3<sup>rd</sup> grade (45 minutes). A selection of live amphibians is available for close examination by the students. Various characteristics and interesting behaviors of amphibians are discussed. Featured animals may include the salamander, fire belly newt, gulf coast toad, clawed frog, siren and rococo toad. (Animals are handled.)

**Arthropods:** 3<sup>rd</sup> grade (50 minutes). Live and preserved specimens are used to compare and contrast characteristics of different classes of arthropods. Featured animals may include the millipede, tarantula, hissing cockroach, land hermits, a scorpion and pill bugs. (The millipede and hissing cockroach are handled.)

**Bird Structures:** 4<sup>th</sup> grade (50 minutes). Study skins will be used to illustrate the many unique characteristics and adaptations of this class of animals. Students need paper and pen or pencil.

**Reptiles:** 4<sup>th</sup> grade (45 minutes). A selection of live reptiles will be available for close examination by the students with a discussion of their various characteristics and interesting behaviors. Featured animals include the box turtle, soft shell turtle, red-eared slider, lizard, and corn snake. (Animals are handled.)

**CSI Cy-Fair:** 5<sup>th</sup> grade (50 minutes) Students solve a “who done it” mystery as they rotate through three station lab investigations analyzing fingerprints, fiber samples and chromatography samples.

**Mammal Skulls:** 5<sup>th</sup> grade (50 minutes). The volunteer discusses traits such as eye placement and tooth arrangement to provide clues for the students to guess the identity of common skulls. They will then be given the correct answer with a discussion of similarities and differences and identifying characteristics. Students need paper and pen or pencil.

**Ecosystems:** 6<sup>th</sup> grade (50 minutes). The volunteer brings a variety of live animals to link as a food chain, ultimately creating a food web. A power point presentation accompanies the lesson. Featured animals may include a rat or mouse family, snake and a toad. (Animals are handled.)

**Biomes:** 7<sup>th</sup> grade (50 minutes). The volunteer brings a variety of plants and animals indigenous to several of the biomes studied: tundra, desert, grassland/savannah, deciduous forest, rainforest. Featured animals may include the Uromastyx, snake, hamsters, a millipede and night crawlers. (Animals are shown in their cages.)

**Endangered Elephants:** 8<sup>th</sup> grade (50 minutes). The volunteer brings a variety of confiscated elephant items and discusses how changes in ecosystems caused by living organisms, including humans, such as the poaching of elephants for ivory has led to an increase in tusklessness in elephant populations. A power point presentation accompanies the lesson.
