

ONWARD 2 HIGH SCHOOL SUMMER INSTITUTE

NURTURING POTENTIAL. INSPIRING GROWTH.

O2HS Summer Institute is a 3-week STEAM (Science, Technology, Engineering, Arts, and Mathematics) program designed to empower rising 7th and 8th graders to explore academic interests beyond the traditional classroom.

PROGRAM HIGHLIGHTS

DIVERSE CURRICULUM

Students explore various subjects, including earth science, financial literacy, art history, and food science. Each course is designed to build essential concepts, ensuring a well-rounded educational experience.

THEMED DAYS & ENGAGING ACTIVITIES

Students participate in a variety of themed days and hands-on activities that add excitement and variety to the learning environment. Food Science Day is a favorite.

GUEST SPEAKERS

Students benefit from valuable insights and exposure to career opportunities from guest speakers.

"It was so much fun, and I made new friends! While many kids would hate summer school, this was my first time going and was better than I could have ever imagined."

- Summer Institute Student
