Administrator/Assistant  
Board Secretary*

## **AHERA Compliance Notification July 2025**

Dear Parents, Teachers and Employees of the Mount Olive School District,

As part of the plan to keep the Mount Olive School District aware of the information regarding updates in our asbestos management plan, which are mandated by the Asbestos Hazardous Emergency Response Act (AHERA) signed into law by President Reagan in December of 1987, this letter is being issued.

As required by AHERA law, an accredited management planner prepared an asbestos management plan for our school building. This plan was submitted and accepted by the New Jersey Department of Health. Initial inspections indicated that asbestos containing building materials (ACBM) are present in the building.

Inspections of all areas identified in the plan, whether ACBM or assumed ACBM, are being inspected at least every six months.

As required by AHERA law since July of 1989, a three year re-inspection was conducted in April 2024 at the Sandshore by an accredited inspection firm. The school building was inspected and a letter of assurance was sent to the New Jersey Department of Health confirming our compliance with AHERA regulations.

Our custodians participate in an asbestos awareness training course and have been instructed on the importance of periodically surveying the asbestos material during their normal day to day activities.

The asbestos management plan, previous three year re-inspection and six month surveillance reports completed are available for review during office hours Monday through Friday in the Board of Education Office. Please contact our director of facilities management Michael Cimmino by email at michael.cimmino@motsd.org.
