Stafford STEM Magnet Academy

ISEE Exam

We are pleased to offer the ISEE as an admissions requirement for the Stafford STEM Magnet Academy. The ISEE is an admissions exam that has four levels: Primary, Lower, Middle and High. The Primary Level is for students currently in grades 2nd and 3rd, who are candidates for admission into 3rd and 4th grades. The Lower Level is for students currently in grades 4th and 5th, who are candidates for admission into 5th and 6th grades. The Middle Level is for students currently in grades 6th and 7th, who are candidates for admission into 7th and 8th grades. Finally, The High Level is for students currently in the 8th grade, who are candidates for admission into the 9th grade.

The ISEE has different forms at each level for security purposes. The Primary Level exam is an hour long and consists of a reading section, a math section, and a short writing sample. The Primary Level is only available online, as a web-based exam. At the Lower, Middle, and High levels, the ISEE consists of three sections: (1) standardized verbal and quantitative reasoning section; (2) reading comprehension and mathematics achievement section; and (3) a written essay section. The Lower Level exam is 2 hours and 20 minutes, while the Middle and High Level exams are 2 hours and 40 minutes. The ISEE essay section is timed and written in response to a prompt. This essay section is not scored; it is scanned and sent only to your selected schools. The ISEE evaluates your child's reading level in addition to their ability to comprehend material drawn from the sciences and humanities.

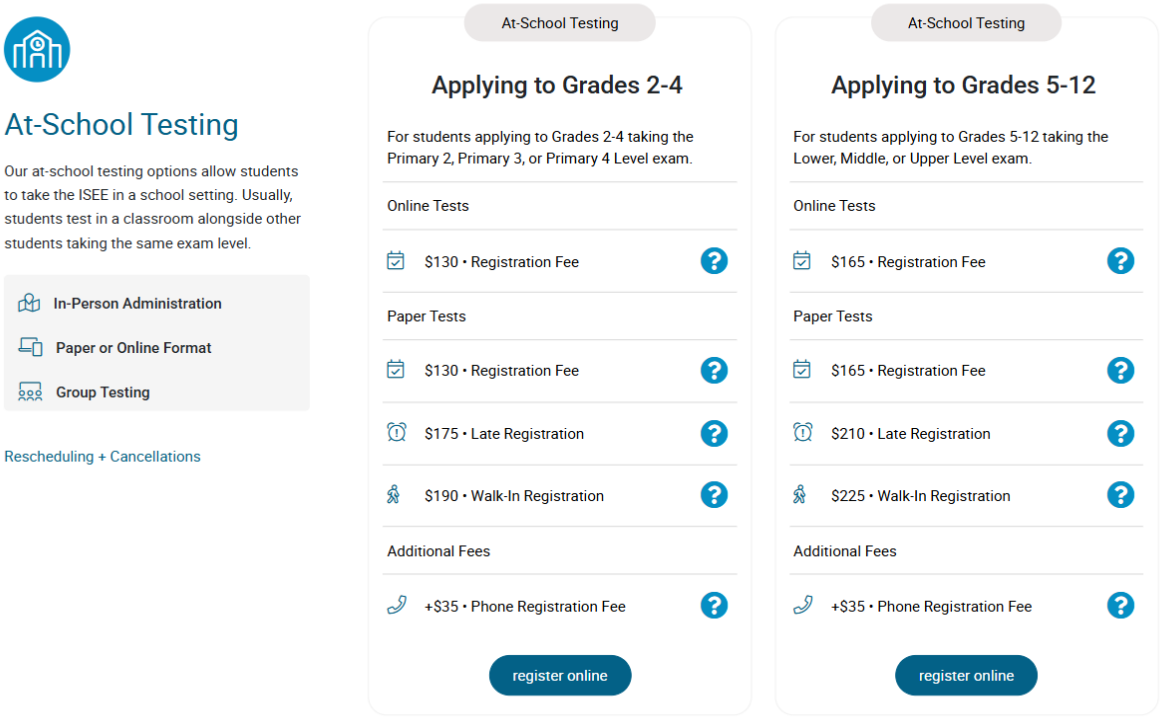

Please note the allotted time for the exam. Kindly allow additional time to accommodate for check-in, student registration, scheduled breaks, and standard administrative procedures.

There is a registration fee associated with the ISEE. For more information, please visit www.iseetest.org.
