

NORTHVILLE PUBLIC SCHOOLS

NORTHVILLE, MICHIGAN

ADMINISTRATIVE PROCEDURE

ASSESSMENT PROCEDURE

Northville Public Schools' IB programming supports the growth mindset model (Dweck, 2006). We support each student to learn at their greatest potential.

Northville Public Schools will ensure varied opportunities for students to demonstrate skills, knowledge and attitudes for achieving personal success through a variety of formative and summative assessments. These assessments may also include those that are standardized, self-assessments, criterion-based, or mandated at the local, state, or national level.

Our professional development work with staff focuses on the following:

- sharing of assessment standards and marks
- internal moderation/standardization of assessment practices
- opportunities for self-assessment and for revision

Student work and related assessments are visible to both students and parents on our adopted LMS (Schoology) and through the Parent MiStar portal.
