STUDENT IMMUNIZATION LAW
AGE/GRADE REQUIREMENTS

The following are the minimum required immunizations for each age and grade level according to the Wisconsin Student Immunization Law. These requirements can be waived for health, religious, or personal conviction reasons. Additional immunizations may be recommended for your child depending on his or her age. Please contact your doctor or local health department to determine if your child needs additional immunizations.

1. Children 5 years of age or older who are enrolled in a Pre-K class should be assessed using the immunization requirements for Kindergarten through Grade 5, which would normally correspond to the individual's age.
2. D = diphtheria, T = tetanus, P = pertussis vaccine. DTaP/DTP/DT/Td vaccine for all students Pre-K through 12: Four doses are required. However, if a student received the 3rd dose after the 4th birthday, further doses are not required. **Note**: A dose four days or less before the 4th birthday is also acceptable.
3. DTaP/DTP/DT vaccine for children entering Kindergarten: Each student must have received one dose after the 4th birthday (either the 3rd, 4th, or 5th dose) to be compliant. **Note**: a dose four days or less before the 4th birthday is also acceptable.
4. Tdap is an adolescent tetanus, diphtheria, and acellular pertussis combination vaccine. If a student received a dose of a tetanus-containing vaccine, such as Td, within five years before entering the grade in which Tdap is required, the student is compliant and a dose of Tdap vaccine is not required.
5. Polio vaccine for students entering grades Kindergarten through 12: Four doses are required. However, if a student received the 3rd dose after the 4th birthday, further doses are not required. **Note**: a dose four days or less before the 4th birthday is also acceptable.
6. Laboratory evidence of immunity to hepatitis B is also acceptable.
7. MMR is measles, mumps, and rubella vaccine. The first dose of MMR vaccine must have been received on or after the 1st birthday. Laboratory evidence of immunity to all three diseases (measles and mumps and rubella) is also acceptable. **Note**: A dose four days or less before the 1st birthday is also acceptable.
8. Varicella vaccine is chickenpox vaccine. Students with a reliable history of varicella disease are not required to receive the Varicella vaccine. A physician, physician assistant, or advanced practice nurse prescriber must document a reliable history of varicella disease by indicating that the student has had varicella and signing the Student Immunization Form (DHS Form 04020L). Students (excluding new enterers and kindergartners) with a parental report of disease prior to May 2024 are considered complaint.
9. One dose of Meningococcal vaccine (serogroup A,C,W,Y) is required for students entering 7th grade, and a booster dose is required for students entering 12th grade. Students are assessed for this requirement in 7th grade and 12th grade only. Current Wisconsin students in 8th-11th grade will not be assessed for this requirement until they enter 12th grade. A second dose is not required for students who received their first dose of MenACWY at age 16 years or older.
