- 10/23 Not So Spooky Story Night
- 11/11 No School
- 11/20 Multicultural Night
- 11/24-11/28 No School Holiday Break

PRINCIPALLY SPEAKING

Dear Parent(s)/Guardian(s)

We are thrilled to welcome our students and families to another exciting school year at Cholee Lake Elementary. The start of a new year always brings fresh energy, new goals, and renewed opportunities to grow and succeed. Whether you are returning to Cholee Lake or joining us for the first time, we are very happy to have you as part of our school community. Our dedicated staff is committed to providing a safe, nurturing, and engaging learning environment where every child can thrive academically, socially, and emotionally. Together, we will work to ensure that each student reaches his or her full potential. With strong partnerships between home and school, we are confident that this year will be filled with meaningful learning experiences, positive relationships, and outstanding achievements.

Greetings from your School Counselors. Mr. Davila and I have been busy meeting and welcoming back our students to a new school year. We are delighted to see so many new faces. In Skills for Learning and Life, students have been learning about empathy, respect, and responsibility. Upcoming lessons will focus on managing worries, self-awareness, and self-management.

To start the school year, students completed the Fall i-Ready Diagnostic assessments in Reading and Math, and we have wrapped up the first round of Progress Monitoring Assessments (PM1) for Kindergarten through Fifth Grade. These assessments are important tools that help us measure student growth and will be administered again later in the year. We are proud to share that our school data showed improvement last year, coming just one point away from earning a B school rating, and with continued effort and support we are confident we can reach that goal this year. It is also important to note that in May, third grade students must score at Level 2 or higher on the Progress Monitoring Assessment in order to be promoted to the next grade level.

We also encourage all parents and guardians to attend our monthly School Advisory Council (SAC) meetings. These meetings are a valuable way to stay informed about school events, academic performance, and important decisions that impact our school community. SAC meetings are held on the second Wednesday of each month, and your involvement plays an important role in shaping the future of our school.

As we look ahead, we are excited about two major upcoming school events. In October, we will host our annual Not So Spooky Story Night. This event gives students the opportunity to hear fun and engaging stories read aloud by staff and community members. After the stories, families are invited to stay and enjoy our festive Truck or Treat activities. Then in November, we will come together for our Multicultural Night, a celebration of the diverse cultures that make up our school community. This special evening is open to all families and offers a chance to learn, connect, and share traditions. Flyers with additional details about both events will be sent home soon.

If you have any questions or concerns, please do not hesitate to contact the school at (561) 383-9600. You may also visit our school website for updates and more information throughout the year.

From the Desk of Kerryann Nelson, Assistant Principal

Dear Parents,

This school year is off to a great start! Thank you for sending your child to school daily and on time. Consistent attendance and punctuality are very important, as they ensure your child does not miss valuable instructional time. If your child is absent, please remember to send a note upon their return so the absence is not marked as unexcused in the system. Thank you for your continued support. I look forward to a productive and successful school year together!

Cholee Lake Elementary Tribune

News from Pre-K

The school year is off to a great start, and the students are adjusting nicely. We are beginning Unit 1 of our classroom program, Connect4Learning®. This unit will help your child get settled with classmates, routines, and the classroom environment. Students will explore topics and skills including the senses, working with numbers, counting from 0 to 10, hearing and using new words, learning about parts of a book, and understanding classroom expectations. The students are developing strong social skills and adjusting well to the school environment. We look forward to working with you to help your child be successful this school year.

News from Kindergarten

Welcome to a brand-new school year in kindergarten. We are excited to begin this journey of learning, growing, and having fun with your child. Students will build foundational skills in reading, writing, and math, including writing complete sentences, adding and subtracting up to twenty, and reading independently. Please check folders daily for important notes and updates. Communication is very important and we look forward to partnering with you for a successful year.

News from 1st Grade

Our first graders are off to a wonderful start. They are settling into routines, enjoying their classrooms, and making new and returning friends. Students are already enjoying Foundations phonics lessons, and beginning of the year assessments are helping guide instruction. We look forward to a fantastic year together.

News from 2nd Grade

Welcome to a new school year. The second-grade team is excited to work with your child and support their learning and growth. This year, students will build important skills in reading, writing, and math. They will practice reading fluently, writing stories and sentences, and solving addition and subtraction problems. To help set students up for success, please ensure they attend school every day and remain for the full day of instruction. Thank you for your support. We look forward to a wonderful year of learning and growth.

News from 3rd Grade

The third-grade students are off to a great start this school year. It has been an amazing beginning and we look forward to seeing their growth throughout the year. In reading, students are working on comparing and contrasting texts, story elements, and identifying the central idea. In math, they are learning division, multiplication, and geometry. In writing, students are practicing writing and editing expository and opinion essays. We look forward to another successful school year.

News from 4th Grade

Fourth grade at Cholee Lake is off to an exciting start as students explore a variety of engaging subjects. In math, they are mastering place value and using it to understand larger numbers and solve real-world problems. Reading lessons focus on identifying the narrator and understanding characters' perspectives, as well as finding the central idea in fiction and nonfiction texts, helping students build strong comprehension skills. In science, students are investigating the world around them through hands-on activities and critical thinking. Creative expression continues in art, music, and PE, where students are developing talents, staying active, and building teamwork skills.

News from 5th Grade

The fifth-grade teachers are excited to see students trying their best this school year. Students have taken the FAST PM1 Assessments. Please ensure they get plenty of rest, attend school daily, and arrive on time.
