

GUIDELINES FOR CERTAIN TRAVEL TEAM POLICIES

1. As to the designated maximum number of players to be selected for any travel team, no fewer than the stated maximum number of players shall be selected unless fewer than the designated maximum number of players try out for and qualify for the team selection.
2. As to the designated maximum number of players to be selected for any travel team, only in extreme exigent circumstances should the team roster be expanded. If such extreme exigent circumstances exist, the following accommodations must also be considered:
 - a. no more than one player may be added to the designated maximum roster;
 - b. minimum playing time requirements should be adjusted;
 - c. additional games should be added to the team's schedule; and/or
 - d. a rotational roster should be considered.
3. As to the minimum number of tryouts a player must attend in order to qualify for selection to any particular travel team, accommodations may be made, **FOR MEDICAL REASONS ONLY**, upon the following strict criteria/circumstances:
 - a. The medical condition must prohibit (i.e. not merely impair) a player's ability to timely participate in the required minimum number of try out evaluations;
 - b. The medical condition must be immediately supported by a written doctor's report to be given to the Recreation Director both as to the medical condition which prohibits a player's ability to participate in the originally scheduled evaluation(s) AND as to the player's medical ability to return to play if a rescheduled or an additional try out evaluation can be reasonably accommodated.
 - c. If a special medical accommodation is timely requested and documented, the player **MUST** be medically cleared to play and be available to attend a tryout evaluation within seven (7) calendar days of the last originally scheduled tryout evaluation date, without exception.
 - d. In order to be considered for a medical condition accommodation: the Recreation Director must have timely received a properly documented pre-evaluation date notification from the parent(s) or legal guardian(s) of the player; the player must not have missed an originally scheduled try out evaluation for any reason other than the medical condition claimed in the exemption/waiver request; and at least one of the evaluators from the originally scheduled tryout evaluations must be available as an evaluator for the special medical accommodation tryout evaluation session.
 - e. If a timely medical exemption/waiver request is made with the Recreation Director, there shall be a delay in the selection and announcement of the travel team roster until after the medical accommodation waiver request is resolved.
 - f. If a medical exemption/waiver request is made after the travel team has been selected and the team announced to the public, no medical exemption/waiver request shall be considered.
 - g. In the consideration of a medical exemption/waiver request, the athletic ability of the player shall not be a factor in the review process.
