Buyer Beware of The Risks of Choosing an Out-Of-Network (OON) Provider

Important Out-of-Network Benefit Notice

What is a Network?

A network is a group of doctors, hospitals, and other healthcare providers. In-network refers to a health care provider that has a contract to provide your health plan health care services to its plan members at a pre-negotiated rate. Out-of-network refers to a health care provider who does not have a contract.

In-Network Providers	Out-of-Network Providers
Will not bill you for charges over the contracted rate	Can bill you however much they want
Usually covered at a higher percentage	Usually covered at a lower percentage by your plan
Applies to your standard deductible	May have a separate deductible
Applies to your standard out-of-pocket maximum	May have separate out-of-pocket maximum
File claims for you	Will require you to submit claims on your own
Meets our quality standards	We have not reviewed their quality
	Can require pre-payment

How Your Plan Pays Out-of-Network Services

Out-of-Network Pricing

Because out-of-network providers can bill you whatever price they want, your plan looks at the average regional price for the service you are receiving (using Medicare rates as a benchmark, which is typically significantly lower than an in-network contracted rate). This is called the **Maximum Allowable Amount**. It then pays a percentage based on your plan’s benefit coverage design.

Warning: Out-of-Network Balance Bill Risk

You may be billed for the remaining balance for anything above the Maximum Allowable Amount even if your benefit shows out-of-network coverage at 100%.¹ In this instance, **the Plan will pay 100% of the maximum allowable amount, not 100% of the charges billed by the provider.**

Cost Example: In-Network vs Out-of-Network Surgery

You choose an In-Network Provider	You choose an Out-of-Network Provider
Provider charges \$20,000 for a surgery	Provider charges \$45,000 for a surgery
Plan covers \$15,000, the pre-negotiated rate amount	Plan covers \$10,000, 100% of the maximum allowed amount
Provider is not allowed to bill you for the difference	Provider may bill you for the \$35,000 difference

1. Depending on the type of service, you may have balance billing protections under the Transparency in Coverage (Tic).

Find a Doctor or Hospital in the HMA Network

Your plan gives you access to the largest healthcare provider network in the Pacific Northwest. When you travel within the U.S., you also have access to a wide provider network. Find in-network providers for high-quality care at the best price.

Get started: log in to the HMA member portal

Visit accesshma.com. Then select the HMA Member Login button on the top of the page for access to the full search experience.

1

After logging in to your HMA account, select “Explore Your Benefits,” and then choose “Find a Doctor or Hospital.”

3

On the main screen, select one of the category boxes and enter the required information and click on the  to generate results

- **Doctors by name:** search by a specific doctor.
- **Doctors by specialty:** search doctors who specialize in a certain condition.
- **Places by name:** search by hospital name
- **Places by type:** search by labs, hospitals, urgent care facility or emergency services.

5

Results can be viewed on a map by clicking the “Map,” button on the top right-hand side.

Always call the provider and facility to verify in-network status before scheduling or receiving services. Not all services performed by in-network providers are covered. You can review your Summary Plan Documents (Click View Coverage tab and Click on Benefit Plan Details) for more information about covered and excluded services.

If you or your doctor’s office have any questions about your member benefits or plan coverage, contact HMA Customer Care by calling the number on the back of your Member ID card, Monday-Friday, 5:00 AM-6:00 PM PT.

Prescription and Pharmacy Helpful Hints

If your pharmacy is unable to fill your prescription or process your pharmacy benefits, consider these questions to help figure out what might be causing the issue and find a possible solution.

Does the pharmacy have your most up-to-date information?

Make sure to show your current HMA member ID card each time you fill a prescription. The pharmacy may have an incorrect or old ID card on file. Also, be sure the pharmacy is using the RxID number on the front of your ID card and not your Employee ID number. If the pharmacy needs assistance, it can contact the Pharmacy Benefits number on the back of your ID card.

Is the prescription covered under your plan?

Some prescriptions may be excluded from your plan — even ones you've filled before if there has been a change on a formulary or list of covered drugs. Call the Pharmacy Benefits number on the back of your ID card to determine if your prescription is currently covered. If not, a generic equivalent or similar drug may be available for you to fill. In some cases, a new prescription from your doctor may be required.

Does the prescription require a prior authorization?

Your doctor may prescribe a medication that requires prior authorization due to your plan's formulary (list of covered drugs). In those cases, your doctor will need to request a prior authorization, either by phone or by fax.

We will notify you and your doctor after the information provided is reviewed to determine if the medication meets the criteria for coverage by your plan. If the prior authorization is approved, the pharmacy will fill your prescription.

If your doctor changes the dosage or frequency of your prescription, or increases the number of refills, your doctor may need to re-authorize your prescription before the pharmacy can fill it.

Do you take medication daily?

Consider filling your prescription through your pharmacy benefits mail order program. Mail order can be a way to save time and money filling regular prescriptions.

If you are still experiencing a problem, or if you need a prescription immediately and your benefits are being denied at the pharmacy, **contact our Customer Care Team** by calling the number on the back of your Member ID card. We're available 5 am – 6 pm PT, Monday – Friday.

Specialty Medications

If you are taking or are prescribed a specialty medication, a member of our Specialty Medication Support team may reach out to help you get the medication at a lower cost.

Specialty Medication Steerage Program

Our Specialty Medication Support Team works to transition specialty medications to a more appropriate level of care where and when it is safe to do so.

Transitioning to a more appropriate level of care means you will receive the same treatment, with appropriate clinical support, at a lower cost — and often at a more convenient location, such as a freestanding infusion site or your home.

While not all medications are appropriate for this program, our team continuously looks for ones that are. If there is an opportunity to transition your care to a lower level, our Specialty Medication Support team will coordinate with both you and your provider so that your treatment is not interrupted.

What is a specialty medication?

Specialty medications are given as an infusion or injection and are used to treat complex and chronic conditions. Although they are not very common, they can be expensive because they require special handling and careful oversight from a trained healthcare provider.

How to Submit a Claim to HMA

If you receive medical, dental or vision services from an out-of-network (OON) provider, you may be asked to pay the charges upfront. In some cases, the OON health care professional will file the claim for you; however, they are not required to do so.

If the procedure/service is covered under your Plan's available out-of-network benefits (subject to any applicable deductibles or copay), you may be eligible for reimbursement.

To submit a claim for reimbursement, choose the option below that is best suited for you:

Understanding Your Explanation of Benefits (EOB)

What is an Explanation of Benefits?

Commonly referred to as an “EOB,” the Explanation of Benefits document is generated when HMA processes a claim submitted by you or your healthcare provider. The EOB is not a bill, it explains how your health plan benefits were applied to the claim.

What should I do with this information?

Each time you receive an Explanation of Benefits (EOB), review it closely, and compare it to the bill or statement from your healthcare provider. If you have any questions, HMA’s contact information can be found on the first page of every EOB. Information on your appeal rights is included at the end of the document.

How to Read Your EOB

An EOB contains three important parts:

1

A summary of activity shows the claims processed between the date(s) of treatment, discounts and adjustments, amounts not covered, what the plan paid, amount owed, and the amount saved.

Page 2 of 3

What You Need to Know About Paying for Your Healthcare

Key terms

Your **copay** is the fixed amount you pay for a covered healthcare service. This is usually paid at the time you receive the service. The dollar amount can vary by the type of service (doctor office visit vs. ER visit).

Your **out-of-pocket maximum** is the most you will pay for covered healthcare services in a given plan year.

Your **deductible** is the amount you pay for covered healthcare services before your health plan starts to chip in. *Note: Preventive care services such as wellness exams and preventive screenings are generally not subject to the deductible.*

Your **coinsurance** is the percentage you pay for covered healthcare services after your deductible has been met.

Example - Member Healthcare Journey Meet Joe

Joe makes an appointment with his doctor for his annual wellness exam. Preventive services are covered at 100% (in-network) and the deductible is waived. That means Joe does not have to pay anything.

A few months later, Joe needs an X-ray. He has not yet met his **deductible** for the plan year, so he must pay the full amount.

It is flu season and Joe does not feel well. He makes an appointment with his doctor. When he checks into the office, he pays a **co-pay**.

Later in the year, Joe bursts his appendix and needs emergency surgery. He has already met his deductible, so he only has to pay his share of the **co-insurance** until he reaches the **out-of-pocket maximum**. From that point on, his health plan will pay the rest.

If Joe gets sick again before the end of the plan year, his health plan will pay 100% of the covered services.
