

WHY TAKE AP CLASSES?

Stand Out in College Admissions

Colleges and universities will know that you have what it takes to succeed in an undergraduate environment. When admissions officers see "AP" on your transcript, they know that you are well prepared for the challenges of college. Taking AP is a sign that you're up for the most rigorous classes.

Earn College Credits

You can save on college expenses: most colleges and universities offer college credit, advanced placement, or both, for qualifying AP Exam scores. These credits can allow students to save college tuition, study abroad, or secure a second major.

Skip Introductory Classes

Taking an AP course and earning a qualifying score on the AP exam can help you advance and avoid required introductory courses so that you can move directly into upper level courses. This opens up additional time on your schedule, enabling you to do a second major or minor, take exciting electives, or pursue additional interests.

Build College Skills

Taking an AP course builds the skills you'll need throughout your college years. You give your mind a rigorous workout while polishing up your time management and study skills. You also get better at handling challenging issues and problems with the support of your AP teachers. AP Courses let you know what to expect during the next phase of your educational journey, and help you build the confidence to succeed.
