1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Based on Ross School District's certified CALPADS Fall 1 enrollment (340) for the 2024–25 school year, which is below 500 students, the District is not subject to the requirement to spend 80 percent of AMS funds on personnel. This allows the District flexibility in how AMS funds are used to support and enhance our arts education program, including instructional materials, contracted services, and other resources that align with the intent of the initiative to expand access to arts and music education for all students. In fiscal year 2024–25, Ross School District strategically utilized AMS funds to enhance both Art and Music programs, ensuring all students benefited from expanded access to high-quality arts education. Art Program Investments: • Purchased art supplies to support hands-on, creative classroom experiences • Provided professional development for teachers to improve and deepen visual arts instruction • Expanded elective offerings, giving students increased opportunities for artistic exploration Music Program Investments: • Purchased a wide range of new musical instruments, eliminating the need for students to rent and allowing all instruments to be provided in-house • Funded live music performances and assemblies, bringing enriching and inspiring musical experiences directly to students on campus These AMS-funded enhancements have significantly strengthened the District's ability to provide engaging, equitable, and comprehensive arts and music education. Ross School District remains committed to using AMS funds in alignment with state guidance and the intent of the initiative—to ensure all students have meaningful access to the arts.
