

Yellow Medicine East - ISD #2190
450 9th Avenue
Granite Falls, MN 56241

Annual Integrated Pest Management Pesticide Notification

Yellow Medicine East uses a licensed, professional pest control service firm for the prevention and control of rodents, insects, and other pests in and around the district's buildings.

Pests can sting, bite, cause contamination, damage property, and spread disease; therefore, we must prevent their presence and control them as necessary. The district or outside contractors may also apply herbicides on district properties, as deemed necessary.

The long-term health effects on children from the application of such pesticides may not be fully understood. All pest control materials are chosen and applied according to labeling directions per Federal law.

To limit the potential pesticide exposure, the district follows safety regulations to ensure pesticides are applied properly. All pesticide products, which are used in and around school buildings, are required to be registered with the Minnesota Department of Agriculture and the U.S. Environmental Protection Agency. In addition, school employees and certified and licensed applicators are required by state and federal law to comply with all requirements of the pesticide label, including building sites, application rates, re-entry intervals, posting, use of personal protective equipment, use restrictions, and disposal on the product label. An estimated schedule of pesticide applications is available for review or copying at the district office.

To be notified about pesticide applications or the management plan, please contact Jeff Partington, Buildings & Grounds Manager at (320) 564-4081.
