SCHOOL DISTRICT OF LA CROSSE

PROJECT PROGRESS REPORT

February 2025 Update

WHAT'S NEW?

Recent developments have included several key meetings and community outreach activities. Discussions with both State Road and Hintgen staff helped assess and address their space needs. Additionally, we provided comprehensive tours and an overview of the State Road Addition/Renovation project to the State Road and Hintgen communities.
A separate project overview session was conducted for Hintgen community members at the Huber Outreach facility, operated by the Boys & Girls Clubs of Greater La Crosse. Lastly, collaboration with district staff and administration verified the program requirements for the State Road addition.

PLANNING & DESIGN UPDATE

Floor and site plans for the New Elementary continue to evolve, ensuring alignment with district needs. The layout for the District Office relocation to Central High School has been finalized, with space requirements confirmed. Considerable attention has also been given to the exterior massing and design of the State Road addition, ensuring seamless integration with its surroundings. To further enhance the design, a collaborative effort explored the identity of the La Crosse community and school district, aiming to incorporate these cultural elements into both the State Road and New Elementary projects.

NEXT STEPS

The next steps include reviewing and finalizing the building element goals for both the State Road and New Elementary projects to align the design with the district's needs. We will also initiate kickoff meetings with engineering consultants to confirm project scope and timelines. Verifying site requirements for the New Elementary remains a top priority, with ongoing efforts to meet all necessary criteria. To further guide the design process, we have scheduled tours of recently completed projects to gather insights and inspiration.
