If you DO NOT feel informed, please explain.

N/A

Some things I don't see til late bc I work and although I do have social media it's not a guarantee I saw it that. It could be days later.

There is no info sent home about all sport try outs with schedule pick up times. No info on some sports dinners. No information has ever been sent home about all the different clubs available and when and where to sign up. Certain club that doesn't stay in contact with students or parent with much needed info. Some info that is given is sometimes not far enough in advance for parents to prepare. Some teachers do not use the infinite campus nor classrooms to do list to make assignments. That makes it very hard if not impossible for some students and especially parents to know what their child should be doing.

3. How effective are the following toward improving communication between your family and the school?
