Pine Lake Preparatory - AI User Agreement

At Pine Lake Preparatory, all students and employees must agree to comply with the requirements of this policy, including the guidelines for generative AI, before using the school's technological resources. By doing so, they consent to the school's use of monitoring systems to detect and address any inappropriate use of these resources.

Additionally, parents or guardians must provide consent for their child to use generative AI tools and will be required to acknowledge their understanding and agreement with the Generative AI Guidelines.

This policy is designed to ensure that all technological and AI resources are used responsibly, ethically, and safely to support the educational mission of Pine Lake Preparatory.

Adopted from NCSBA Policy 3225/4312/7320
