A NOTE FROM THE SUPERINTENDENT

The 2024-25 Annual Report reflects the remarkable accomplishments and milestones of Pinellas County Schools over the past year. We are incredibly proud of our students, teachers, and staff, whose dedication and excellence have earned state and national honors across academics, the arts, and athletics, including being named an A district by the Florida Department of Education for the second year in a row. Our schools continue to enrich the student experience through rigorous academics, innovative hands-on learning, and meaningful opportunities like field trips and enrichment programs. Once again, our students have outperformed state averages on assessments—a testament to the strength of our teachers.

We are equally proud of the safety and efficiency of our school operations, the unwavering support from our volunteers, and the strong partnerships we've built with families and community organizations. As we celebrate these successes, we remain committed to advancing educational excellence and look forward to an even more impactful year ahead.
