

The shaded area on the map represents the transportation zone for OFHS. All students living within the transportation zone, with the exception of those living within two (2) miles from the school, will receive transportation from a designated bus stop.

Students who live outside the transportation zone can still receive transportation to OFHS provided they (or their parents) transport themselves to a designated arterial bus stop within the transportation zone. Students choosing to exercise this option should call the PCS Transportation Department at 587-2020 to be assigned an arterial bus stop within the transportation zone.

Transportation will give you a case number when you call, please record this number and have it available for future reference.
