

2025-26 Archery Season Parent/Guardian Meeting

<https://titanfalconarchery.mycheddarup.com>

SportsYou: MVMR-G2SZ

The archery program is organized as a club at both the middle school and high school level. **The Titan Archery Club** is a formal 501(c)(3) that manages the resources for the Falcon and Titan Archery Clubs and operates under the National Archery in Schools Program (NASP). Board Members can be found on our website <https://titanfalconarchery.mycheddarup.com>

Important Dates

- October 8: Parent/Guardian Meeting
- October 26: Registration Due for New Archers
- October 27 & 29: Required New Archer Clinics
- November 3: Fees Due for all archers, Registration due for returning archers
- December 15: Picture Night
- January 3: Start of Tournament Season
- February 25: Last practice of regular season
- March 2: Post-season practice begins
- March 19-21: Missouri State Archery Tournament
- May 7-9: NASP Eastern Nationals Tournament
- May 13: End of Season Celebration

Who Can Participate?

SLMS and LSW students in grades 6-12. The normal club eligibility rules apply for both high school and middle school. No experience is necessary to join. We will teach you to shoot safely using NASP approved training.

New Archer Clinic

Students new to our archery team must attend both nights of the New Archer Clinic. The clinic is October 27 (7-9pm) and 29 (7-8 pm) at Summit Lakes Middle School. All new archers must register by October 26 in order to attend the New Archer Clinic.

Equipment

No equipment is necessary. We have club bows for use during practice. It is common for archers to want their own bow at some point. NASP is very specific about what equipment can be used within the program. See the Handbook for more details or discuss with your child's coaches. **Please do not purchase any equipment until your archer has been through the new archer clinic and we have determined their dominant eye.**

Handbook

The handbook on our website & SportsYou as it answers many of the common questions and explains how the clubs and NASP work in much more detail.

Team Conduct

Our aim is to teach your son or daughter to enjoy shooting archery as a team sport. Middle and high school is a time for testing boundaries and occasionally this conflicts with the safety or function of the archery team. Our coaches make every effort to help your archer succeed; however, certain behavior may result in immediate dismissal from the team.

Communication

We use the SportsYou app for communication.

- All archers need at least 1 parent/guardian to join the team in SportsYou.
- Use the code MVMR-G2SZ to join
- Adults should designate themselves as "family" when joining the team on the app
- All adults must indicate their first and last name as well as their archer's first and last name.
- Archers age 13+ may join as a "player".

A QR Code for the SportsYou team page can be found at the end of this document.

Archer Registration

- All new archers should register by October 26.
- Returning archers must register by November 3.
- All registration forms can be found at this link:
<https://titanfalconarchery.mycheddarup.com>

A QR code can also be found at the end of this document.

Fees

All archer fees are due by November 3.

- Middle School Fee: \$50
- High School Fee: \$100
- All fees can be paid at this link:
<https://titanfalconarchery.mycheddarup.com>

If the fees pose a hardship for your family, please contact the team managers or your coach.

Practices

The practice schedule is posted in SportsYou.

- Usually Mondays & Wednesdays at Summit Lakes Middle School
- Middle School 7-8 pm, arrive 6:45 for set up
- High School 8-9 pm, leave after tear down at 9:15
- Schedules may change occasionally due to gym availability

Practices are closed to spectators. Parents may wait in the hallway if desired. Full team practices will occur through February 18. Beginning February 23, practices will be limited to the postseason teams.

Attendance

We know that middle and high school students are involved in many activities and that there will be conflicts. We encourage your student to attend practice as much as possible as it is very hard to become proficient without appropriate coaching and practice. If your archer is restricted from attending school due to health or disciplinary reasons on the day of practice then they should not attend practice that evening.

Tournaments

Archers are not required to participate in tournaments. Tournament season is January 3 - February 21. Most regular season tournaments will be in Lee's Summit. The schedule for these can be found on the calendar in SportsYou.

- Registration fees typically range from \$10-\$20 per tournament, and are payable via links posted on SportsYou.
- Tournaments offering bullseye and 3D charge 2 separate registration fees
- Families are responsible for transportation to and from tournaments.

Postseason/State Teams

Postseason practice starts February 23. We will select our postseason/state team after the February 14 tournament.

Postseason team selection criteria:

- A state qualifying score
- For bullseye, compete in at least 3 regular season bullseye tournaments. For 3D, compete in at least 3 regular season 3D tournaments.
- Attend and actively participate in at least 80% of practices
- Model good citizenship and respectful behavior
- Completion of the the postseason commitment form by the due date (available early February)

A state qualifying score does NOT guarantee postseason team selection.

Note: a team jersey is **required** for postseason shooting and is not the same as a spirit wear t-shirt. The cost for jerseys will be communicated at a later date.

Volunteers

The club is parent volunteer supported. We have two home tournaments planned and we will be looking for volunteers to help run them. All volunteers must have the normal LSR7 volunteer form on file prior to volunteering.

How Teams Are Formed

Bullseye

NASP bullseye teams can be made up of 12-24 archers, with at least 4 female and 4 male archers on each team. Regardless of size, (12-24) the "team score" for an individual tournament is made by combining only 12 of the archer scores. Team scores determine team eligibility and qualification for state and national tournaments.

A bullseye team score includes:

1. The 4 highest scores from female archers on the team
2. The 4 highest scores from male archers on the team
3. The 4 highest scores not included in items 1 or 2 above, regardless of gender

Bullseye teams with less than 12 archers total or teams with less than 4 male AND 4 female archers will not receive a team score for the tournament.

Examples:

1. A bullseye team with 12 male archers and 2 female archers **will not** receive a team score (does not have enough female archers)
2. A bullseye team with 24 female archers **will not** receive a score (does not have enough male archers)
3. A bullseye team with 6 male and 6 female archers **will** receive a score (top 4 male, top 4 female, next 4 of any gender)
4. A bullseye team with 14 male and 10 female archers **will** receive a score (top 4 male, top 4 female, next 4 of any gender)

Archers will be strategically placed on teams to maximize team scores. It is important that archers only register for tournaments they intend to attend.

3D

NASP 3D teams can be made up of 6-24 archers, with at least 2 female and 2 male archers on each team. Regardless of size, (6-24) the "team score" for an individual tournament is made by combining only 6 of the archer scores. Team scores determine team eligibility and qualification for state and national tournaments.

A 3D team score includes:

1. The 2 highest scores from female archers on the team
2. The 2 highest scores from male archers on the team
3. The 2 highest scores not included in items 1 or 2 above, regardless of gender

3D teams with less than 6 archers total or teams with less than 2 male AND 2 female archers will not receive a team score for the tournament.

Examples:

1. A 3D team with 12 male archers and 1 female archer **will not** receive a team score (does not have enough female archers)
2. A 3D team with 24 female archers **will not** receive a score (does not have enough male archers)
3. A 3D team with 14 male and 10 female archers **will** receive a score (top 2 male, top 2 female, next 2 of any gender)
4. A 3D team with 2 male archers and 4 female archers **will** receive a score (top 2 male, top 2 female, next 2 of any gender)

Archers will be strategically placed on teams to maximize team scores. It is important that archers only register for tournaments they intend to attend.
