SOMERS Central School District
Forward in Excellence

REGIONAL PLANNING

TIMELINE OF THE PROCESS FOR PUTNAM NORTHERN WESTCHESTER BOCES REGION

Collection of Survey Data

The participating component school districts of Putnam Northern Westchester BOCES submitted survey data to identify potential areas of collaboration for the region.

Survey Data Analyzed

The Survey data was analyzed and priorities were identified. PNWBOCES held convenings with the participating school districts to discuss the results.

Activities created for our regional plan

In September 2025 component school districts were presented with 4 activities to collaborate on:

- 1.1-Regional Mental health services expansion, 1.2-Cooperative Pre-K & CPSE Services, 1.3-Transportation Coordination, 1.4-Regional Work Based Learning Coordination (more information here)

Certification

On September 30, 2025, Dr. Bronstein certified that Somers Central School District would like to continue to collaborate and participate in the discussions around the 4 activities. At this point, SCSD has not committed any resources to this plan, but we have agreed to move forward with contributing to the planning process for the activities listed in the presentation.

WE ARE HERE

Transforming the Activities to BOCES Cooperative Serivce (Co-Sers)

PNW BOCES component school districts will continue to collaborate on bringing the 4 activities to fruition, with the goal to have each activity available as an option to enter into a co-ser agreement. At that time, each school district will be able to decide for themselves if they would like to commit to participating in the co-ser and whether to commit resources as a school district.
