

WEB (Where Everyone Belongs) is a global organization designed to enlist leaders in the eighth grade with supporting sixth grade students in their transition to middle school. Through our teacher and student nomination process, OMS selects between 60-85 WEB leaders each year. The WEB leaders are instrumental in our sixth grade orientation on the first day of school. During the school year our WEB leaders will teach lessons, design activities, and make continued connections with our sixth grade students. These leaders work hard to show our sixth graders the OMS way!
