

# F.I.R.S.T. & JOB TRAINING PROGRAMS

## DO YOU?

- ✓ Want to become more independent?
- ✓ Have a desire to improve your soft skills?
- ✓ Want to try different types of jobs?
- ✓ Enjoy getting feedback to improve your performance?

## YOUR EXPERIENCE

Job Training Programs within the Four Cities Compact requires recommendation from the student's teacher or school counselor.

Job Training Programs within the Four Cities Compact provide technical, on-the-job training for students who require individualized support as they transition to competitive, integrated employment. Students participate in work experiences at businesses within their community that enables them to develop work attitudes, values, soft and interpersonal skills that are needed in the world of work.

The Job Training Programs help students understand their individual potential, while helping match their abilities to realistic employment options. Instructors work with parents, school personnel and adult agencies to assist students in their transition to post-school activities.
