Title

2025-27 State School Superintendent's Parent Advisory Council

Requested Action

School Board Recognition of 2025-27 State School Superintendent's Parent Advisory Council

Summary Explanation and Background

A Cherokee County School District parent has been named to the State School Superintendent's Parent Advisory Council!

Longtime PTA leader Audrey Legrand was selected by State School Superintendent Richard Woods to serve a two-year term on his Parent Advisory Council. Ms. Legrand has volunteered and served in leadership roles both with her children's school PTA units and with the Cherokee County Council PTA, which oversees all school PTA units countywide. She is past president of the countywide PTA and the current treasurer.

The panel is made up of 30 Title I school parents from across the state selected by Superintendent Woods based on nominations. They will meet three times this school year with Superintendent Woods to discuss education issues in Georgia. Advisory council members, in turn, share the information they learn with other families, serving as advisors and ambassadors in their communities.

Parents are nominated by their Principals to be considered for the opportunity; only one nomination per school district is accepted. Members are chosen based on leadership capacity and current school engagement, as well as their responses to education related questions as part of the selection process.
