V. Action Plan

A. Went over the Key Indicators from each section

1. No questions asked pertaining to the key indicators

B. Focus on HQI because of the 43% passing rate

1. Think that it is important to have enough of staff because of the work load and what the campus needs – A.C

2. P.C – Yes we want to make sure that we focus on instruction to be able to reach the goal of becoming an A

VI. Questions and Answers

A. Harriet Smith -What is the significance of the 2035 correlation?

1. P.C – Supt. Miles vision is to be able to close the skills gap by 2035 and to ensure that our students are not left behind

B. Harriet Smith – The 80 spot observation is alot? How can that happen with all the things that happen at the campus.

P.C – We are well over the 80, at the moment we have 91 for the month of September Each administrator is required to do 3 am and 3 pm spots

H.C –The concern is that others/community should know about the constant pull of other responsibilities that administrators have to complete and understanding that instruction is the key

C. P.C – As a parent what is your feedback (A.C)

1. Good experience with my kid. When I drop her off no issues of it being really dark at 6:30. Overall good experience for my student.

VII. Closing

A. 5:34 p.m.

“EXCELLENCE...
Every Day in Every Way!”
