OPERATING LEVY AND BOND VOTE 2025

On November 4, STMA voters will be asked to consider two referenda questions, a levy and a bond:

Q1

A 10-year operating levy that will generate \$275 per student for the first two years and \$835 per student for the following eight years to balance the budget and support day-to-day district operations, including maintaining current class sizes, programs, and services.

Q2

A \$21 million bond to improve safety and security, update technology, complete infrastructure updates, renovate academic spaces, and build ahands-on STEM (Science, Technology, Engineering, and Math) Center.
Question 2 can only pass if Question 1 is approved.

PROPOSED UPDATES TO OUTDOOR ATHLETIC FIELDS

Turf allows for play during the wet spring seasons and can handle moderate rain and still be playable.

Turf would be marked at the baseball field to allow for bases to be placed at 60 feet, 70 feet, 80 feet, and 90 feet.

Baseball field is larger than a softball field so turfing the entire field allows for it to be used as a practice space for sports like football and soccer in the fall and softball and lacrosse in the spring (in addition to baseball); **creating a true multi-use field.**

Potential for youth softball games to be played on the turf, as the field does not need to recover for upcoming competitions.

Lights on the baseball field would allow for games and practices to happen in the **early mornings or later in evening.**
