V. Principal's Report:

Great opening of the school year. We are already at the Five WEEk with students getting their progress reports next week. ECAST has been moved to September 19th, currently showing a negative one, potentially four students short. There is an appeal available if you are within 10 of the number of students needed to keep our teaching staff. Tech is another very important component of instruction.

Aloha assembly and PBIS assemblies were successful as part of the opening of the school year. This went off well, this was the best attended Back to School Night in a long while. We are moving along, arts and sports are functioning. Science building is scheduled for opening in October, realistically it might be more like January. It is a two classroom facility and will have a ribbon cutting ceremony and we will need to decide on a name that is personal to Verdugo.
