Exploring Level 2 Reporting

Strengthening Data Verification and Reporting Practices

Join us for an interactive session designed to deepen your understanding of **Level 2 Reports (L2RPT)**, a powerful reporting system developed by NYSED. L2RPT provides access to school district data, submitted through *Level 0* and locked into the *Suffolk Data Warehouse*, supporting districts in maintaining data accuracy and integrity throughout the school year.

In this session, participants will learn how to access and navigate their reports to verify the wide range of data uploaded by their district. Together, we will explore how these reports serve as essential tools in the yearlong data verification process, helping to identify and address potential issues prior to final data submissions.

Participants will gain:

- An overview of the annual data reporting process
- An understanding of L2RPT platform functionality and navigation
- Guidance on key reports that support effective data verification

Build your confidence in using L2RPT to ensure the accuracy, completeness, and reliability of your district's data.
