October 13, 2025

To Parent, Teacher & Employee Organizations

The Asbestos Hazard Emergency Response Act (AHERA) of 1986 (AHERA) required that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (Periodic Surveillance) and re-inspect those facilities every three years (Tri-annual Re-inspection).

The Hawthorne Board of Education is in compliance with these requirements. The most recent Tri-annual re-inspection was performed in March of 2025. “Periodic Surveillance” inspections are conducted every six months, unless a Tri-annual re-inspection is due. The most recent Periodic Surveillance inspection was performed in August 2025, with the next one scheduled for February of 2026.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plan of action and recommended schedule for implementation (Asbestos Management Plan) is available for review at the Hawthorne Board of Education Administrative Office, as well as in the school office.

This past year a “minor” asbestos abatement was performed at the Lincoln Middle School in the basement area. The project involved less than ten (10) linear feet of pipe insulation and was performed in accordance with all applicable rules, regulations, and guidelines.

We will continue to keep you informed of our AHERA compliance.

Respectfully Yours,
Cathy DiNardo
