To: Carteret Public School District Parents/Guardians

Re: 2025-2026 District Assessment Memo

New Jersey school districts are required by statute (*N.J.S.A. 18A: 7C-6.6*) to annually notify parents or guardians by October 1 of any statewide student assessment or commercially-developed standardized assessment that will be administered over the course of the school year. If after October 1, it is decided that an additional commercially-developed standardized assessment will be administered, then the information shall be shared with parents as soon as possible (within 30 days of receipt of final reports for statewide assessments). The district is committed to meeting the educational needs of all of our students, and local and state assessment data are essential to identifying the strengths and weaknesses of each student, which enables the district to differentiate instruction.

The New Jersey Department of Education has changed assessment providers and has mandated a field test for all students in grades 4-12 in fall 2026. This test will be included in the assessment calendar below. The results of this assessment will not be shared with school districts or the public, as this field test will be used to support spring state assessments.

The schedule is subject to change throughout the year. If specific details are not yet available, "To Be Determined" ("TBD") will be used until the dates are finalized. You are encouraged to check the school website, www.carteretschools.org, for the most current assessment schedule.

If you have any questions or concerns, please contact your child's principal.

Key:

- Information about Available Accommodations and Accessibility Features refers to the manual that outlines the accommodations and accessibility options available for the test.
- Required by State, Federal or Local whether the assessment is required or mandated by state, federal or local district.
- Sample Questions provides a link to sample items/questions for students to practice.
- Testing Time Allotted per Student is the maximum amount of time allotted to students to complete the assessment. Most students finish well in advance of the allotted time.
- Testing Window is the period of time in which districts administer the assessment. It is not the actual number of days it takes a student to complete the assessment. School districts can choose the specific days within the window to administer the test. Please inquire with your district about the exact testing dates of the assessment.

Results Available refers to the date districts receive individualized student results from the assessment. These results should be distributed to students, educators, and families as soon as possible (within 30 days of receipt of final reports for statewide assessments).
