

Scarborough Complete Streets and Traffic-Calming Guidance Manual Public Meeting

Thursday, October 23, 2025
6:00 – 7:30 PM
Meeting Agenda

In Person:

*Public Safety Building
275 U.S. Route 1, Training Room (1st Floor)
Scarborough, Maine*

Background

The Town of Scarborough is developing a Complete Streets and Traffic-Calming Guidance Manual to help the Town make streets safer and more accommodating to all modes of transportation.

Please join Town of Scarborough staff at a public meeting where they share draft content for the Guidance Manual and look for community input on when, where, and how complete streets and traffic-calming are implemented in Scarborough. The workshop will include a drop-in period where attendees can review draft materials, talk with Town staff, ask questions, and provide feedback. The meeting will also include a facilitated exercise where attendees can participate in a simulated traffic-calming design exercise.

1. Welcomes/Arrival (6:00 PM)

10 minutes

The Town of Scarborough welcomes participants as they sign in. Consultant staff orient participants as they do an initial scan of open-house materials.

2. Presentation (6:10 PM)

10 minutes

The Town of Scarborough and consultant staff give a brief presentation on the project background, objectives, and desired outcomes.

3. Open House (6:20 PM)

20 minutes

Participants browse open-house materials and share feedback and ideas with facilitators.

4. Traffic-Calming Exercise (6:40 PM)

50 minutes

Consultant firm Nelson\Nygaard facilitates a scenario-based design exercise, with participants experimenting with traffic-calming treatments in different project and budget contexts. The exercise explores the benefits, tradeoffs, and budget limitations of different traffic-calming treatments.
