

# Racial and Educational Justice Toolkit

## The Northshore School District

*The Racial and Educational Justice Toolkit was developed by The Northshore School District Racial and Educational Justice Department. This toolkit serves to store and make available resources for Northshore staff and administrators as they relate to racial and educational justice topics and is intended to streamline access to such resources in one place. In the below chart, each resource has a short description, identifies relevant grade band(s), and categorizes whether it is for student or adult learning. To continue to maintain and update this toolkit, the Racial and Educational Justice Department and Racial and Educational Justice Committee will engage in quarterly reviews of the document.*
