PreK - 8 Curriculum Management Plan 2025 - 2030

Key:

Greenwich Curriculum Cycle:

The academic curriculum is reviewed in a cyclical nature every five years. The cycle begins with an internal audit of current materials, where the program administrator makes a determination as to whether or not renewal is appropriate or if a selection of new materials is necessary. When selecting a new program is appropriate, stakeholder input via the Curriculum Advisory Council is gathered, and options are vetted, with a recommendation presented to the BOE. Once materials have been approved, the program is funded, materials are procured, and implementation begins. A three-to-four-year period of continuous progress monitoring evaluates the successfulness of the program, and the cycle repeats.

Step in Cycle Color Shading:

1. Internal Audit of Programmatic Needs
2. Selection with Stakeholder Input (*if Needed*)
3. Purchase and/or Initial Implementation or Program Renewal
4. Continuous Progress Monitoring
