

How Do Student Interns Grow within Project SEARCH?

- We begin the year by focusing on functional literacy for the workplace.
- We work together on social and communication skills that are critical for a workplace through real life examples and role play.
- We match student interests with internship opportunities.
- We monitor student comfort levels in the workplace and provide supports as needed.
- We meet as a team including the intern and the supervisors to monitor progress during each internship.
- We work together to prepare for interviewing and keeping a job.

What is the Application Process?

What to do if you are ready to take the next step toward a bright future:

- Talk to your case managers, family & counselors to make sure this program is right for you.
- Attend the Open House in November.
- Complete the application by the deadline in January.
- Complete an interview with the Project SEARCH Committee.
