NATOMAS UNIFIED SCHOOL DISTRICT	1931 ARENA BLVD., SACRAMENTO, CA 95834	
School District Name	Address	
LUIS HUERTA, EXECUTIVE DIRECTOR	(916) 567-5477	lhuerta@natomasunified.org
District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

**IPM statement**

It is the goal of NATOMAS UNIFIED SCHOOL DISTRICT to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Focus on long-term pest prevention and keeping weeds to a minimum using IPM Practices.

**IPM team**

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
LUIS HUERTA	EXECUTIVE DIRECTOR, MAINTENANCE & OPERATIONS; INCLUDING PEST PREVENTION & CONTROL
VANESSA DIAZ	OFFICE SPECIALIST, MAINTENANCE & OPERATIONS; INCLUDING COORDINATE & SCHEDULE SERVICES

**Pest management contracting**

- Pest management services are contracted to a licensed pest control business.  
Pest Control Business name(s): OFFICIAL PEST PREVENTION
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

**Pest identification, monitoring and inspection**

Pest Identification is done by: DISTRICT STAFF & PEST CONTROL TECHNICIANS  
*(Example: College/University staff, Pest Control Business, etc.)*

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by DISTRICT STAFF & PEST CONTROL TECHNICIANS and results are communicated to the IPM Coordinator.  
*(Example: District staff title, e.g. Maintenance staff)*

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:  
*(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)*

Routine visual inspections by custodial staff; setting up and monitoring glue traps; and installing door sweeps.

**Pests and non-chemical management practices**

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
ANTS	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Chemical pest management practices**

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

**Healthy Schools Act**

- This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

**Training**

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

**Submittal of pesticide use reports**

- Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt<sup>1</sup> from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at [www.cdpr.ca.gov/schoolipm](http://www.cdpr.ca.gov/schoolipm). (Education Code Section 16711)

**Notification**

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: <https://www.natomasunified.org/departments/maintenance-and-operations>
- This IPM plan is sent out to all parents, guardians and staff annually.

**Review**

- This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: OCTOBER 2025

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Other: CAUTION, Pesticides ARE TOXIC CHEMICALS. Structural Pest Control Operators are licensed and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized. If within 24 hours following application you experience symptoms similar to common seasonal illness compared to the flu, dizziness, headache, nausea, etc., contact your physician or poison control center (below) and your pest control operator immediately. For further information, contact your pest control operator. Official Pest Prevention (916) 686-7960.
