Learning to Do
Doing to Learn
Earning to Live
Living to Serve

The Alabama CTE Agriscience Course of Study is guided by the state's Career and Technical Education standards for the Agriculture, Food, and Natural Resources cluster. It is a project-based program with five pathways—Animal Science, Plant Science, Environmental Science, Industrial Agriculture, and General Agriculture—designed to prepare students for careers in a diverse industry. The curriculum includes foundational skills, safety, leadership, and specialized knowledge through courses like "Fundamentals of Agriscience" and the capstone "Career Pathway Project".

FFA is for students who want to engage in agriculture and aspire to be farmers, teachers, doctors, scientists, business owners and more. FFA continues to help the next generation rise up to meet those challenges by helping its members to develop their own unique talents and explore their interests in a broad range of agricultural career pathways. We are the Future Farmers of America.
