

Entrepreneurship and Small Business Program

1 credit at Home School
3 credits at CCCTC

CCCTC Completer Program - 4 credits

The Entrepreneurship and Small Business program prepares students who want to go into the Management and Entrepreneurship cluster. Students will focus on initiating and managing businesses, including startups, small businesses, and social enterprises.

Student Course Sequence

Principles of Business Administration & Management

Principles of Business Management provides a foundational understanding of the role of business in a global society, American business as a dynamic process, forms of business ownership, management concepts, marketing, production and distribution, and accounting and finance.

Entrepreneurship & Small Business I

Entrepreneurship and Small Business I will introduce students to the essential skills and concepts needed to start managing a small business, including entrepreneurship, marketing, finance, and business structure. The course builds employability skills like communication, teamwork, and ethical decision-making, while offering hands-on experience through projects and business administration.

Entrepreneurship & Small Business II

Entrepreneurship and Small Business II expands on business knowledge by focusing on advanced management, leadership, and growth strategies. This course emphasizes project management principles, business process improvement, and professional project planning tools.

School-Based Enterprise

School Based Enterprise strengthens students' leadership and management skills through real-world business operations within school-based enterprises. The course emphasizes advanced project management, teamwork, and communication while helping students build a professional portfolio and prepare for industry certifications and leadership roles in business.
