

Facilities Department – October 2025 Update

1. **Support for Specialty Programs**

This past month, significant effort was dedicated to supporting specialty areas such as Musical Arts, Technology, and Science. Tasks included assembling shelving, moving furniture, and responding to specific needs to help enhance these learning environments.

2. **Support for New Building Events**

The facilities team successfully supported the first major events in the new building, including the Choral concert, Homecoming festivities, and Playoff Volleyball. The new space functioned exceptionally well, confirming its design and flow meet event needs.

3. **HVAC Upgrades at Paradise Elementary**

HVAC upgrade projects at Paradise Elementary have been completed. The new systems are fully operational and performing as expected.

4. **Grounds & Post-Construction Touch-Ups**

Our grounds team has begun addressing end-of-project issues across sites, including regrading dirt piles, filling in holes, and seeding areas that were impacted during construction.

5. **Staff Training & Onboarding**

New hires are scheduled for training sessions focused on district systems to ensure a smooth transition and alignment with facility standards.

6. **School Zone Flashers**

Progress continues on the installation of School Zone flashers. We are currently waiting on final paperwork to move forward with completion.

7. **Gym Window Film Project**

Collaborated with contractors to define the scope and pricing for the Gym window film installation project.
