

# ED-TECH TUESDAY

## TIPS OF THE WEEK

OCTOBER 14, 2025

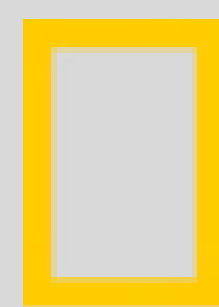

Each week we will feature one video from our Promethean Video Library. This week's video is **Creating New Profiles**. Click the 'Watch Now' button to view this video. To check out our entire Promethean library click the link on the bottom of this page.

# Promethean

National Geographic for Kids is an excellent resource for teachers, providing engaging, high-quality content that brings the world into the classroom. It offers articles, videos, and interactive activities that support lessons in science, geography, and social studies, helping students explore new topics with curiosity and excitement. Teachers can use it to spark discussions, reinforce concepts, and inspire students to learn about the natural world and different cultures in a fun and accessible way.
