

## Principal / Departmental Agreement to Participate in Data Request and/or Research Activities

Educational research cannot be conducted in any school without the written approval of the school principal or central office department director. Researchers may only reach out to campuses after gaining district approval for the research. **Please attach your district-level approval letter to this form for principal review.** District-level approval does not obligate any school to participate.

The Ector County Independent School District (ECISD) External Research Review Committee (ERRC) must approve all educational research activities conducted in Ector County ISD schools and departments.

<b>Project title</b>	Click or tap here to enter text.
<b>Researcher name/affiliation</b>	Click or tap here to enter text.
<b>ECISD school name</b>	Click or tap here to enter text.
<b>Principal name</b>	Click or tap here to enter text.

I agree that our school will participate in the educational research study named above, subject to the researcher's compliance with Ector County ISD policies.
