

Home of the Clippers Comprehensive Remediation Programs 2023-2024

	All-In Plan	Safety Net	Attendance Recovery
Who?	Students earning a SOL score in May 2023 below 400 in Reading and/or Math. Students earning a SOL score in May 2023 between 400-440 in Reading and/or Math.	Students identified by teachers in ELA, Math, Science, and History in need of additional support and/or remediation.	Students identified as truant and/or chronically absent.
What?	The All-In Plan provides identified students with small group reading and/or math instruction/remediation facilitated by an UI tutor.	Students receive remediation and/or support on specific objectives in core content areas facilitated by a teacher, paraprofessional, or UI tutor.	Students may recover an absence by attending 3 hours of instruction facilitated by a teacher.
When?	During Reading Support and/or Math Support class time	During the school day and/or after school	After school
Focus	Students will focus on Reading and/or Math objectives using Lexia (reading) and/or Zearn (math) in addition to receiving instruction from a UI tutor. Tutors will pull small groups from Reading Support and/or Math Support classes to administer remediation/support.	Students will participate in instruction and instructional activities based on targeted objectives identified by unit assessments in the four content areas.	Students will receive missed instruction from all contents to recover absences from school.
