623 MANDATORY SUMMER SCHOOL INSTRUCTION

I. PURPOSE

The purpose of this policy is to establish program parameters and student attendance guidelines and requirements for the school district relating to the provision of mandatory summer school educational services.

II. GENERAL STATEMENT OF POLICY

Summer school educational services and instruction shall be directed toward the fulfillment of the goals and objectives of the educational program and graduation standards of the school district.

III. PROCEDURES

A. The school district shall offer summer school instruction providing opportunities for:

1. Special education instruction and services related to mandatory summer school instruction consistent with applicable state and federal authority for all qualified disabled children where appropriate to their educational needs;

2. Other mandatory summer school programs as determined by the school district. In accordance with Minnesota Statutes § 127A.47, Subd. 5 as amended, a signed acknowledgement is required to confirm agreements for the education of students with disabilities receiving instruction.

B. All services of the summer school program will be free to residents of the school district whose need for a summer program has been identified by teachers or the school principal and who are required to attend pursuant to established school district criteria and the provisions of this policy.

C. The summer school curriculum will be established in line with the needs of students and in accordance with rules of the Minnesota Department of Education. Remedial, make-up, and review courses shall provide opportunities for students to qualify for promotion and/or credit in areas and subjects where previous work has not met promotion/credit standards. It shall further be designed to assist students who have not passed one or more basic requirements tests and who are in need of

remediation services relating to the school district's graduation standards or who have been identified as at risk of not learning to read before the end of second grade.

D. Summer school provides the opportunity for students to improve basic skills, further their academic progress, and/or accelerate in designated academic areas. The intent of the school district is to ensure that courses taught during the summer session are of the same level of instructional breadth and difficulty as provided during the regular school year.

IV. MANDATORY SUMMER SCHOOL INSTRUCTION

The school board will direct the administration to identify and develop specific criteria and standards for determining which students must receive summer school instruction. These will be provided to the school board for review and approval on no less than an annual basis. Following school board approval, the criteria and standards for mandatory summer school instruction will be included in this policy as Attachment A and incorporated herein by reference.

V. TRANSPORTATION SERVICES

A. The school district shall make available transportation services for all students required to receive instruction in the school district's summer school program in accordance with Minnesota Statutes section 120A.22, Subd. 5(b). The school district recognizes that transportation is an essential part of the school district services to students and parents but further recognizes that transportation by school bus is a privilege and not a right for an eligible student.

B. The school board shall retain sole discretion, control, and management of scheduling routes, establishment of the location of bus stops, manner and method of transportation, control and discipline of school children, and any other matter relating to the provision of transportation services.

VI. SCHOOL BOARD REVIEW

The superintendent or designated representative shall report at least annually to the school board regarding the status and utilization of programs under this policy. All summer school programs will be subject to annual review and approval by the school board.

Attachment A

Criteria and Standards for Mandatory Summer School Instruction

Care and Treatment Eligibility

Students, including students with an IEP, placed for residential care and treatment described in Minnesota Statutes, section 125A.515, are eligible for summer school based on the summer school program provided to other students enrolled in the district if the students are determined to be below grade level.

The following is used to make the determination that the student is below grade level and therefore meets state criteria for summer school:

1. The student has failed enough courses that the student would not be able to make up enough credits and graduate with student's class without taking courses in addition to a full schedule from this point to graduation.
2. The student partially met or did not meet the standards on State standardized testing.
3. The student did not meet grade level standards on other standardized testing.
4. The student did not meet grade level standards on District identified screening tools.
