

**2025-2026**

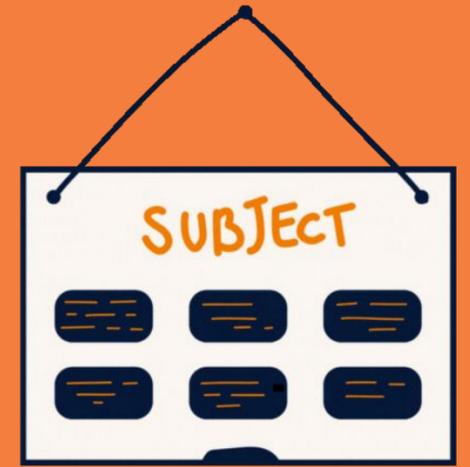

# Superintendent's Goals

**October 9, 2025**

# GOAL

Continue to advance the implementation of interdisciplinary learning opportunities and classes, district-wide

Evaluate the implications for staffing, curriculum development, professional learning, and scheduling associated with further development of interdisciplinary courses

Develop mechanisms for the sharing best practices around interdisciplinary teaching and curriculum development across buildings (i.e. Develop a shared resource folder for interdisciplinary class development and team teaching practices)

Continue to support instructional coaching to develop classes, units, and experiences

# GOAL

## Provide leadership to the implementation of the new District Committee Structure

### Action Steps to include:

- ★ Ensure that each committee has a clear purpose for its work, aligned with the Vision Map and important related work
- ★ Ensure that each committee has thoughtfully-selected facilitators and representation from a range of constituencies
- ★ Provide for the logistical support and direction necessary for each committee to meet its goals
- ★ Ensure that each committee's work during the year is shared with the school district community
- ★ Co-facilitate and serve as a member of multiple committees

**Determine and implement ways to evaluate the effectiveness of the new programs and approaches that are being implemented throughout the District**

**FOCUSING ON:**

**Collaborative team-teaching models at all 3 schools**

- Student, parent/family, and faculty feedback
- Classroom observations
- Student shadowing
- Student performance results

**Master scheduling changes**

- Examination of impact on instructional time
- Student participation in clubs and other activities
- Student, parent/family, and faculty feedback
- Program, classroom, and activity observations

**District Committees**

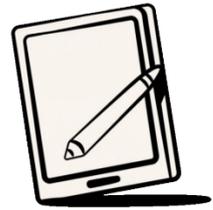

- Review of participation and summaries from each Committee's meetings
- Alignment of outcomes with anticipated outcomes
- Feedback from Committee members and facilitators

**Anticipated Metrics**

# GOAL

Evaluate our current communications approaches in order to develop a forward-looking communications and community engagement plan

Develop a communication strategy with regard to demonstrating what success looks like for individual students and groups of students in our schools

Solicit feedback from the staff and community regarding our current communications' platforms, including our website, ParentSquare, and social media

Identify how our community best accesses information about our schools and modify our practices as necessary
