

# Accreditation Engagement Review

July 01, 2024 - June 30, 2025

**Silver Stage High School**

Institution #231020

3755 W Spruce Ave  
Silver Springs, Nevada 89429  
United States of America

# Accreditation Is Continuous Improvement

Cognia defines continuous improvement as "an embedded behavior rooted in an institution's culture that constantly focuses on conditions, processes, and practices to improve teaching and learning." Accreditation is a continuous improvement process that helps an institution improve teaching and learning. Using Cognia's Performance Standards, the institution examines its current effectiveness as well as its capacity and capability to achieve its vision and goals for the future.

Cognia believes all institutions can improve no matter how well they are currently performing. In the same manner that educators are expected to understand the unique needs of every learner and tailor the education experience to drive student success, every institution must be empowered

to map out and embrace their unique improvement journey. Cognia expects institutions to use the results and analyses of data from diverse sources to select and implement actions that drive improvement in education quality and student performance. Cognia recognizes that each institution's improvement journey is unique and that we can serve you best by providing key findings specific to your institution.

Around the turn of the 21st century, accreditation transformed its focus and process from a ten-year evaluation focused on the accomplishments of an institution's past decade to a forward-focused process examining what an institution is striving to accomplish in the next five years. Modern accreditation examines the current and future

capabilities and capacities of an institution in the context of its mission, purpose and direction. The Standards for Accreditation define how a good institution behaves and provides the criteria to focus improvement efforts that will lead to growing learners, teachers, and leaders.

In reality, modern accreditation is a continuous improvement process. At least every six years, the institution formally engages the Standards for Accreditation to reflect and examine its progress toward its desired future as expressed through its mission, purpose, and strategic direction.

Cognia's purpose-driven, strategic process is the most widely used continuous improvement process in the world.

---

## Cognia Performance Accreditation and the Engagement Review

This report contains the findings of the Engagement Review. The findings of the report are organized in five sections: Assurances, Rating of Analyses, Cognia Performance Standards, Insights from the Review, and a Summary of Findings that includes Noteworthy Practices and Areas for Improvement.

Accreditation is pivotal to leveraging education quality and continuous improvement. Using a set of rigorous research-based standards, the accreditation process examines the whole institution—the program, the cultural context, and the community of stakeholders—to determine how

well the parts work together to meet the needs of learners. Through the Cognia Accreditation Process, highly skilled and trained evaluators gather first-hand evidence and information pertinent to evaluating an institution's performance against research-based Cognia Performance Standards. Using these standards, evaluators assess the quality of the learning environment to gain valuable insights and target improvements in teaching and learning as well as the operation of the institution.

To build a comprehensive evaluation of your institution, our experts gain a broad understanding of institution

quality through a review of documented evidence, discussions with leadership, and community feedback. Using the standards as a framework, the report provides valuable guidance to help focus your institution's improvement journey.

# Assurances

Assurances are requirements that accredited institutions must meet. The assurance statements are based on the type of institution, and the responses are confirmed by the Accreditation Engagement Review. Institutions are expected to meet all assurances and are expected to correct any deficiencies in unmet assurances.

#	ASSURANCES	YES/NO
1.	The institution has read, understands, and complies with the Cognia Accreditation and Certification Policies and Procedures.	☑ Yes
2.	The institution complies with all applicable governmental laws or regulations.	☑ Yes
3.	The institution adheres to ethical marketing and communication practices to transparently disclose current and accurate information to the public.	☑ Yes
4.	The governing authority adheres to written policies that govern its conduct, decision making, ethics, and authority; and engages in training aligned to its roles and responsibilities.	☑ Yes
5.	The institution annually submits all financial transactions for an annual audit conducted by an accounting authority external to the institution.	☑ Yes
6.	The institution annually reviews and implements written management plans for security, crisis, safety and health for onsite and virtual environments that includes expectations, communications protocols, and training for students, staff and stakeholders.	☑ Yes
7.	The institution participates in required training related to accreditation or certification by timeframes prescribed by Cognia.	☑ Yes

# Evaluations of Institution Analyses

Cognia expects institutions to use a systematic process to collect data and information using quality instruments and then analyze and synthesize that information to arrive at findings. From the findings, Cognia expects institutions to develop, prioritize, and implement theories of action that will sustain high-performing areas and lead to improvement in underperforming areas.

Cognia requires institutions to complete analyses on selected data sources. Each analysis is evaluated using rubrics aligned to the main activities within the analysis process.

## Stakeholder Feedback Analysis

CRITERION	YOUR SCORE
The institution has made an accurate appraisal of the quality of their data sources using the Evaluative Criteria.	 Network Average: 3.5
The institution has analyzed and synthesized information.	 Network Average: 3.1
The institution has identified areas of noteworthy achievement and areas in need of improvement.	 Network Average: 3.4
The institution has interpreted findings, prioritized themes, and developed theories of action.	 Network Average: 2.9

## Performance Standards Evaluation Results

Accreditation is based primarily on the evaluation of evidence that reflects an institution’s ability to meet the expectations as defined by the Cognia Performance Standards. The Performance Standards define the elements of quality that research indicates are present in an effective institution. Accreditation standards provide the guideposts to becoming a better institution. The Engagement Review evaluators apply a four-level rubric to determine the degree to which the institution demonstrates effective practices that reflect the expectations of the standard. The rubric scale is designed to indicate the current performance of the institution.

**The rubric is scored from Level 4 to Level 1. Descriptions are provided in the table below.**

RATING	LEVEL	DESCRIPTION
★★★★	4	Demonstrating noteworthy systematic and systemic practices producing clear results that positively impact learners.
★★★★☆	3	Engaging in practices that provide evidence of expected effectiveness that is reflected in the standard.
★★★☆☆	2	Developing or improving practices that provide evidence that effort approaches desired level of effectiveness.
★☆☆☆☆	1	Reflecting areas with insufficient evidence and/or limited activity leading toward improvement.

# Cognia Performance Standards Ratings

## Culture of Learning Standards

A good institution nurtures and sustains a healthy culture for learning. In a healthy culture, learners, parents, and educators feel connected to the purpose and work of the institution as well as behave in alignment with the stated values and norms. The institution also demonstrates evidence that reflects the mission, beliefs, and expectations of the institution (e.g., student work; physical appearance of the institution; participation in institution activities; parents' attendance at institution functions).

### Keys to Culture of Learning

A healthy culture is evident where:

- Stakeholders are actively engaged and supportive of the institution's mission
- Learners' academic and non-academic needs and interests are the focal point
- Stakeholders are included and supported

#### Standard 1

**Leaders cultivate and sustain a culture that demonstrates respect, fairness, equity, and inclusion, and is free from bias.**

YOUR RATING  
  
Network Average: 3.3

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders consistently model the attributes and implement practices that shape and sustain the desired institution culture, clearly setting expectations for all staff members. Leaders and professional staff members consistently implement ongoing practices, processes, and decision making that embody the values of respect, fairness, equity, and inclusion and are free from bias.
3	3 - Leaders regularly model the attributes and implement practices that shape and sustain the desired institution culture, clearly setting expectations for all staff members. Leaders and professional staff members routinely implement ongoing practices, processes, and decision making that embody the values of respect, fairness, equity, and inclusion and are free from bias.
2	2 - Leaders occasionally model the attributes and implement practices that shape and sustain the desired institution culture, clearly setting expectations for all staff members. Leaders and professional staff members sometimes implement ongoing practices, processes, and decision making that embody the values of respect, fairness, equity, and inclusion and are free from bias.
1	1 - Leaders rarely model the attributes and implement practices that shape and sustain the desired institution culture, clearly setting expectations for all staff members. Leaders and professional staff members seldom implement ongoing practices, processes, and decision making that embody the values of respect, fairness, equity, and inclusion and are free from bias.

## Standard 2

**Learners' well-being is at the heart of the institution's guiding principles such as mission, purpose, and beliefs.**

YOUR RATING  
★ ★ ★ ★  
Network Average: 3.4

LEVEL	DESCRIPTION
4	4 - Staff members continually demonstrate commitment to learners' academic and non-academic needs and interests. The institution's practices, processes, and decisions are documented and regularly reviewed for consistency with its stated values.
3	3 - Staff members routinely demonstrate commitment to learners' academic and non-academic needs and interests. The institution's practices, processes, and decisions are documented and are consistent with and based on its stated values.
2	2 - Staff members occasionally demonstrate commitment to learners' academic and non-academic needs and interests. The institution's practices, processes, and decisions are consistent with and based on its stated values.
1	1 - Staff members seldom demonstrate commitment to learners' academic and non-academic needs and interests. The institution's practices, processes, and decisions may not be based on its stated values.

## Standard 3

**Leaders actively engage stakeholders to support the institution's priorities and guiding principles that promote learners' academic growth and well-being.**

YOUR RATING  
★ ★ ★ ★  
Network Average: 2.9

LEVEL	DESCRIPTION
4	4 - Leaders establish and sustain conditions that consistently result in support and active participation among stakeholders. Leaders consistently collaborate with stakeholders to advance identified priorities. Institutions implement a formal process to choose areas of focus based on analyzed data on learners' needs and consistent with guiding principles.
3	3 - Leaders establish and sustain conditions that regularly result in support and active participation among stakeholders. Leaders routinely collaborate with stakeholders to advance identified priorities. Institutions choose areas of focus based on analyzed data on learners' needs and consistent with guiding principles.
2	2 - Leaders establish conditions that occasionally result in support and participation among stakeholders. Leaders sometimes collaborate with stakeholders to advance identified priorities. Institutions choose areas of focus sometimes based on data on learners' needs and consistent with guiding principles.
1	1 - Leaders establish conditions that rarely result in support and participation among stakeholders. Leaders seldom collaborate with stakeholders. Institutions choose areas of focus rarely based on data about learners.

## Standard 4

### Learners benefit from a formal structure that fosters positive relationships with peers and adults.

YOUR RATING  
★★★★☆  
Network Average: 3.1

LEVEL	DESCRIPTION
4	4 - A formal structure is planned and consistently implemented to promote a culture and climate in which learners receive support from adults and peers. Peer and adult interactions and behaviors consistently demonstrate respect, trust, and concern for one another's well-being.
3	3 - A formal structure is planned and regularly implemented to promote a culture and climate in which learners receive support from adults and peers. Peer and adult interactions and behaviors routinely demonstrate respect, trust, and concern for one another's well-being.
2	2 - A formal structure may be planned but is minimally implemented to promote a culture and climate in which learners receive support from adults and peers. Peer and adult interactions and behaviors sometimes demonstrate respect, trust, and concern for one another's well-being.
1	1 - A formal structure is not planned or implemented to promote a culture and climate in which learners receive support from adults and peers. Peer and adult interactions and behaviors rarely demonstrate respect, trust, and concern for one another's well-being.

## Standard 5

### Professional staff members embrace effective collegiality and collaboration in support of learners.

YOUR RATING  
★★★★☆  
Network Average: 3.0

LEVEL	DESCRIPTION
4	4 - The institution's documented operating practices cultivate and set expectations for collegiality and collaboration and are monitored for fidelity of implementation. Professional staff members consistently interact with respect and cooperation, learn from one another, and consider one another's ideas. Professional staff members intentionally and consistently work together in self-formed or assigned groups to review information, identify common problems, and implement solutions on behalf of learners.
3	3 - The institution's documented operating practices cultivate and set expectations for collegiality and collaboration. Professional staff members regularly interact with respect and cooperation, often learn from one another, and routinely consider one another's ideas. Professional staff members often work together in self-formed or assigned groups to review information, identify common problems, and implement solutions on behalf of learners.
2	2 - The institution's operating practices somewhat cultivate and set expectations for collegiality and collaboration. Professional staff members generally interact with respect and cooperation, periodically learn from one another, and somewhat consider one another's ideas. Professional staff members sometimes work together in self-formed or assigned groups to review information, identify common problems, and implement solutions on behalf of learners.
1	1 - The institution's operating practices rarely cultivate and set expectations for collegiality and collaboration. Professional staff members may or may not interact with respect and cooperation, learn from one another, or consider one another's ideas. Professional staff members rarely work together in self-formed or assigned groups to review information, identify common problems, and implement solutions on behalf of learners.

**Professional staff members receive the support they need to strengthen their professional practice.**

YOUR RATING  
 ★★☆☆  
 Network Average: 2.9

LEVEL	DESCRIPTION
4	4 - Professional staff members consistently receive adequate resources and assistance based on data and information unique to the individual. A formal structure ensures that professional staff members receive personalized mentoring and coaching from leaders and peers.
3	3 - Professional staff members receive adequate resources and assistance based on data and information unique to the individual. Professional staff members receive personalized mentoring and coaching from leaders and peers.
2	2 - Professional staff members receive some resources and assistance based on data and information unique to the individual. Professional staff members periodically receive mentoring and coaching from leaders and peers.
1	1 - Professional staff members receive few or no resources and assistance based on data and information unique to the individual. Professional staff members rarely receive mentoring and coaching from leaders and peers.

Network Comparison for Culture of Learning Standards

## Leadership for Learning Standards

The ability of a leader to provide leadership for learning is a key attribute of a good institution. Leaders who engage in their own learning while tangibly supporting the learning process for learners and teachers have a significant positive impact on the success of others. Leaders must also communicate the learning expectations for all learners and teachers continuously with consistency and purpose. The expectations are embedded in the culture of the institution, reflected by learners', teachers', and leaders' behaviors and attitudes toward learning.

### Keys to Leadership for Learning

Leadership for learning is demonstrated when school leaders:

- Communicate expectations for learning
- Influence and impact the culture in positive ways
- Model and engage in learning while supporting others to do so

## Standard 7

### Leaders guide professional staff members in the continuous improvement process focused on learners' experiences and needs.

YOUR RATING  
★★★★☆  
Network Average: 2.8

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders consistently engage professional staff members in developing, communicating, implementing, monitoring, and adjusting the continuous improvement process. The continuous improvement process is based on analyzed trend and current data about learners' academic and non-academic needs and the institution's organizational effectiveness. Leaders and professional staff members consistently implement ongoing practices, processes, and decision making that improve learning and engage stakeholders.
3	3 - Leaders regularly engage professional staff members in developing, communicating, implementing, monitoring, and adjusting the continuous improvement process. The continuous improvement process is based on analyzed data about learners' academic and non-academic needs and the institution's organizational effectiveness. Leaders and professional staff members routinely implement ongoing practices, processes, and decision making that improve learning and engage stakeholders.
2	2 - Leaders occasionally engage professional staff members in developing, communicating, implementing, monitoring, and adjusting the continuous improvement process. The continuous improvement process is sometimes based on data about learners' academic and non-academic needs and the institution's organizational effectiveness. Leaders and professional staff members sometimes implement ongoing practices, processes, and decision making that improve learning and engage stakeholders.
1	1 - Leaders seldom engage professional staff members in developing, communicating, implementing, monitoring, and adjusting the continuous improvement process. The continuous improvement process is rarely based on data about learners' academic and non-academic needs and the institution's organizational effectiveness. Leaders and professional staff members rarely implement ongoing practices, processes, and decision making that improve learning and engage stakeholders.

## Standard 8

### The governing authority demonstrates a commitment to learners by collaborating with leaders to uphold the institution's priorities and to drive continuous improvement.

YOUR RATING  
★★★★☆  
Network Average: 3.2

LEVEL	DESCRIPTION
-------	-------------

4	4 - The governing authority's policies and decisions are regularly reviewed to ensure an uncompromised commitment to learners and the institution's identified priorities. The governing authority and institution leaders use their respective roles and responsibilities to consistently and intentionally collaborate to further the institution's improvement.
3	3 - The governing authority's policies and decisions demonstrate a commitment to learners and support the institution's identified priorities. The governing authority and institution leaders use their respective roles and responsibilities to collaboratively further the institution's improvement.
2	2 - The governing authority's decisions demonstrate some commitment to learners and sometimes support the institution's identified priorities. The governing authority and institution leaders use their respective roles and responsibilities to focus the institution's improvement.
1	1 - The governing authority's decisions demonstrate minimal commitment to learners and rarely support the

institution's identified priorities. The governing authority and institution leaders seldom collaborate on the institution's improvement.

## Standard 9

### Leaders cultivate effective individual and collective leadership among stakeholders.

YOUR RATING

Network Average: 2.9

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders consistently recognize and actively encourage leadership potential among stakeholders. Leaders create conditions that ensure formal and informal leadership opportunities, and provide customized support for individuals and groups to improve their leadership skills. Stakeholders show initiative and eagerness to take on individual or shared responsibilities that support the institution's priorities.
3	3 - Leaders frequently recognize and encourage leadership potential among stakeholders. Leaders create conditions that regularly offer formal and informal leadership opportunities, and support individuals and groups to improve their leadership skills. Stakeholders demonstrate a willingness to take on individual or shared responsibilities that support the institution's priorities.
2	2 - Leaders occasionally recognize and encourage leadership potential among stakeholders. Leaders sometimes create conditions that offer leadership opportunities and support individuals and groups to improve their leadership skills. Stakeholders sometimes volunteer to take on individual or shared responsibilities that support the institution's priorities.
1	1 - Leaders seldom recognize and encourage leadership potential among stakeholders. Leaders rarely create conditions that offer leadership opportunities and support individuals and groups to improve their leadership skills. Stakeholders rarely volunteer to take on individual or shared responsibilities that support the institution's priorities.

## Standard 10

### Leaders demonstrate expertise in recruiting, supervising, and evaluating professional staff members to optimize learning.

YOUR RATING

Network Average: 2.9

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders intentionally and consistently identify, develop, and retain qualified professional staff members who contribute to the institution's culture and priorities. Leaders consistently use analyzed data from a variety of sources to forecast future staffing needs and employ best practices to attract a diverse pool of candidates. Leaders implement and monitor documented practices and procedures for supervision and evaluation that improve professional staff members' performance to optimize learning.
3	3 - Leaders identify, develop, and retain qualified professional staff members who contribute to the institution's culture and priorities. Leaders routinely use data from a variety of sources to forecast future staffing needs and employ best practices to attract a diverse pool of candidates. Leaders regularly implement practices and procedures for supervision and evaluation that improve professional staff members' performance to optimize learning.

---

2 2 - Leaders hire qualified professional staff members who contribute to the institution's culture and priorities. Leaders sometimes use data to forecast future staffing needs. Leaders supervise and evaluate professional staff members to improve performance.

---

1 1 - Leaders hire qualified professional staff members without consideration of contribution to the institution's culture and priorities. Leaders rarely use data to forecast future staffing needs. Leaders seldom supervise and evaluate professional staff members to improve performance.

---

#### Standard 11

### Leaders create and maintain institutional structures and processes that support learners and staff members in both stable and changing environments.

YOUR RATING  
★ ★ ★ ★  
Network Average: 3.1

---

LEVEL	DESCRIPTION
-------	-------------

---

4	4 - Leaders consistently demonstrate awareness of potential influences on institution stability and engage stakeholders in planning and implementing strategies to maintain stability and respond to change. The institution's structure and processes are documented, monitored, and thoroughly communicated so that learners and staff members know what to do and expect in everyday circumstances. The institution's structure and processes include emergency and contingency plans that support agile and effective responses to both incremental and sudden change.
---	--

---

3	3 - Leaders regularly demonstrate awareness of potential influences on institution stability and engage stakeholders in planning and implementing strategies to maintain stability and respond to change. The institution's structure and processes are documented and communicated so that learners and staff members know what to do and expect in everyday circumstances. The institution's structure and processes include emergency and contingency plans that support responses to both incremental and sudden change.
---	--

---

2	2 - Leaders sometimes demonstrate awareness of potential influences on institution stability and engage stakeholders in planning and implementing strategies to maintain stability and respond to change. The institution's structure and processes are occasionally documented and communicated so that learners and staff members know what to do and expect in everyday circumstances. The institution's structure and processes include emergency and contingency plans to respond to change.
---	---

---

1	1 - Leaders seldom demonstrate awareness of potential influences on institution stability. The institution's structure and processes are not well documented or communicated so that learners and staff members know what to do and expect in everyday circumstances. The institution's structure and processes may not include emergency and contingency plans to respond to change.
---	---

---

#### Standard 12

### Professional staff members implement curriculum and instruction that are aligned for relevancy, inclusion, and effectiveness.

YOUR RATING  
★ ★ ★ ★  
Network Average: 2.9

---

LEVEL	DESCRIPTION
-------	-------------

---

4	4 - Professional staff members systematically implement, review, and adjust curriculum and instruction based on recognized and evidence-based content standards. Curriculum and instructional practices are regularly assessed through a formal, systematic process to assure alignment, relevancy, inclusiveness, and effectiveness for all learners.
---	--

---

3	3 - Professional staff members implement, review, and adjust curriculum and instruction based on recognized and evidence-based content standards. Curriculum and instructional practices are regularly assessed to assure alignment, relevancy, inclusiveness, and effectiveness for all learners.
2	2 - Professional staff members implement curriculum and instruction based on recognized and evidence-based content standards. Curriculum and instructional practices are sometimes assessed to assure alignment, relevancy, inclusiveness, and effectiveness for all learners.
1	1 - Professional staff members implement locally adopted curriculum and instruction. Curriculum and instructional practices are rarely or not assessed to assure alignment, relevancy, inclusiveness, and effectiveness for all learners.

Standard 13

**Qualified personnel instruct and assist learners and each other in support of the institution’s mission, purpose, and beliefs.**

YOUR RATING  
  
 Network Average: 3.0

LEVEL DESCRIPTION

4	4 - All staff members demonstrate commitment to enhancing their professional practice over and above the required knowledge and skills for their positions. Staff members work collaboratively to instruct and assist learners and colleagues in support of the institution’s guiding principles. Staff members’ individual and collective decisions and behaviors consistently demonstrate alignment and coherence with the institution’s mission, purpose, and beliefs.
3	3 - All staff members demonstrate the required knowledge and skills for their positions. Staff members work cooperatively to instruct and assist learners and colleagues in support of the institution’s guiding principles. Staff members’ individual and collective decisions and behaviors demonstrate alignment and coherence with the institution’s mission, purpose, and beliefs.
2	2 - Most staff members demonstrate the required knowledge and skills for their positions, and a plan is being implemented to ensure that all staff members are qualified for their positions. Staff members sometimes work cooperatively to instruct and assist learners and colleagues in support of the institution’s guiding principles. Staff members’ individual and collective decisions and behaviors sometimes demonstrate alignment and coherence with the institution’s mission, purpose, and beliefs.
1	1 - Some staff members do not demonstrate the required knowledge and skills for their positions, and a plan does not exist to ensure that all staff members are qualified for their positions. Staff members rarely work cooperatively to instruct and assist learners and colleagues in support of the institution’s guiding principles. Staff members’ individual and collective decisions and behaviors rarely demonstrate alignment and coherence with the institution’s mission, purpose, and beliefs.

## Standard 14

### Curriculum and instruction are augmented by reliable information resources and materials that advance learning and support learners' personal interests.

YOUR RATING  
★ ★ ★ ★  
Network Average: 3.0

LEVEL	DESCRIPTION
-------	-------------

4	4 - Professional staff members consistently suggest and provide thoughtfully selected information resources and materials for learners that broaden and enrich the learning process and support learners' personal interests. A systematic process is used to identify and verify that information resources and materials are selected from credible sources.
3	3 - Professional staff members suggest and provide thoughtfully selected information resources and materials for learners that broaden and enrich the learning process and support learners' personal interests. These information resources and materials are selected from credible sources and based on verifiable information.
2	2 - Professional staff members sometimes suggest and provide information resources and materials for learners that broaden and enrich the learning process and/or support learners' personal interests. These information resources and materials are usually selected from credible sources and based on verifiable information.
1	1 - Professional staff members rarely suggest and provide information resources and materials for learners that broaden and enrich the learning process or support learners' personal interests. These information resources and materials are rarely selected from credible sources or may not be based on verifiable information.

## Standard 15

### Learners' needs drive the equitable allocation and management of human, material, digital, and fiscal resources.

YOUR RATING  
★ ★ ★ ★  
Network Average: 3.0

LEVEL	DESCRIPTION
-------	-------------

4	4 - Professional staff members engage in a systematic process to analyze learners' needs and current trend data to adjust the allocation and management of human, material, digital, and fiscal resources to ensure equity for learning. Adjustments to resource allocation are consistently based on current data at any point in time.
3	3 - Professional staff members routinely analyze learners' needs and current trend data to adjust the allocation and management of human, material, digital, and fiscal resources to ensure equity for learning. Adjustments to resource allocation are routinely based on current data and at predetermined points in time.
2	2 - Professional staff members sometimes analyze learners' needs and current trend data to adjust the allocation and management of human, material, digital, and fiscal resources to ensure equity for learning. Adjustments to resource allocation are sometimes based on current or updated data.
1	1 - Professional staff members rarely analyze learners' needs and trend data to adjust the allocation and management of human, material, digital, and fiscal resources. Resources are rarely allocated in alignment with documented learners' needs or to ensure equity for learning.

## Network Comparison for Leadership for Learning Standards

## Engagement of Learning Standards

A good institution ensures that learners are engaged in the learning environment. Learners who are engaged in the learning environment participate with confidence and display agency over their own learning. A good institution adopts policies and engages in practices that support all learners being included in the learning process.

### Keys to Engagement of Learning

Engagement is demonstrated when all learners:

- Are included in the learning process
- Participate with confidence
- Have agency over their learning

#### Standard 16

**Learners experience curriculum and instruction that emphasize the value of diverse cultures, backgrounds, and abilities.**

YOUR RATING

Network Average: 2.9

LEVEL	DESCRIPTION
4	4 - Respect for the diversity of cultures, backgrounds, and abilities is embedded in every aspect of the institution's culture and learning environments. The presence and contributions of the global community are authentically integrated in the curricular content and instructional practices.
3	3 - Respect for the diversity of cultures, backgrounds, and abilities is clearly present in the institution's culture and learning environments. The presence and contributions of the global community are intentionally included in the curricular content and instructional practices.
2	2 - Respect for the diversity of cultures, backgrounds, and abilities is somewhat present in the institution's culture and learning environments. The presence and contributions of the global community are inconsistently included in the curricular content and instructional practices.
1	1 - Respect for the diversity of cultures, backgrounds, and abilities is rarely present in the institution's culture and learning environments. The presence and contributions of the global community are not included in the curricular content and instructional practices.

Standard 17

**Learners have equitable opportunities to realize their learning potential.**

YOUR RATING  
  
 Network Average: 3.0

LEVEL DESCRIPTION

4	4 - Professional staff members develop relationships with and understand the needs and well-being of individual learners. Academic and non-academic experiences are tailored to the needs and well-being of individual learners. Learners are challenged and supported to strive towards maximal levels of achievement and self-efficacy without barriers or hindrances by schedules or access to academic and non-academic offerings.
3	3 - Professional staff members know their learners well enough to develop and provide a variety of academic and non-academic experiences. Learners have access and choice in most academic and non-academic opportunities available according to grade levels or through expected sequencing of courses. Learners rarely encounter barriers when accessing academic and non-academic experiences most suited to their individual needs and well-being. Learners are challenged and supported to strive towards individual achievement and self-efficacy.
2	2 - Professional staff members give consideration to varying learner needs and well-being when developing and providing academic and non-academic experiences. Learners have access to some variety in academic and non-academic opportunities available according to grade levels or through expected sequencing of courses. Learners may encounter barriers when accessing some academic and non-academic experiences most suited to their individual needs and well-being. Learners are sometimes challenged and supported to strive towards individual achievement and self-efficacy.
1	1 - Professional staff members give little or no consideration to individual learner needs and well-being when developing and providing academic and non-academic experiences. Academic and non-academic opportunities are limited and standardized according to grade levels or a predetermined sequencing of courses. Learners frequently encounter a variety of barriers when accessing academic and non-academic offerings that would be well suited to their individual needs and well-being. Learners are rarely challenged to strive towards individual achievement and self-efficacy.

Standard 18

**Learners are immersed in an environment that fosters lifelong skills including creativity, curiosity, risk taking, collaboration, and design thinking.**

YOUR RATING  
  
 Network Average: 2.9

LEVEL DESCRIPTION

4	4 - Conditions across all aspects of the institution promote learners' lifelong skills. Learners engage in ongoing experiences that develop the non-academic skills important for their next steps in learning and for future success. A formal structure ensures that learning experiences collectively build skills in creativity, curiosity, risk taking, collaboration, and design thinking.
3	3 - Conditions within most aspects of the institution promote learners' lifelong skills. Learners engage in experiences that develop the non-academic skills important for their next steps in learning and for future success. Collectively, the learning experiences build skills in creativity, curiosity, risk taking, collaboration, and design thinking.
2	2 - Conditions within some aspects of the institution promote learners' lifelong skills. Learners engage in some experiences that develop non-academic skills important for their next steps in learning and for future success.

---

Some learning experiences build skills in creativity, curiosity, risk taking, collaboration, and design thinking.

---

- 1 1 - Learners engage in environments that focus primarily on academic learning objectives only. Little or no emphasis is placed on non-academic skills important for next steps in learning and for future success. Learning experiences rarely build skills in creativity, curiosity, risk taking, collaboration, or design thinking.
- 

Standard 19

**Learners are immersed in an environment that promotes and respects student voice and responsibility for their learning.**

YOUR RATING

Network Average: 2.9

---

LEVEL DESCRIPTION

- 4 4 - Learners consistently pursue challenging opportunities that may not always result in success, knowing that they will be supported when needed. Learners readily and consistently show motivation, curiosity, and excitement about their learning.
- 3 3 - Most learners pursue opportunities that may not always result in success, knowing they will be supported. Most learners show motivation, curiosity, and excitement about their learning.
- 2 2 - Some learners pursue opportunities that may not always result in success, but only with significant, individual support. Some learners show motivation, curiosity, and excitement about their learning.
- 

1 1 - Most learners primarily pursue opportunities they believe to be risk-free or heavily guaranteed to be successful. Most learners show little motivation, curiosity, or excitement about their learning.

Standard 21

**Instruction is characterized by high expectations and learner-centered practices.**

YOUR RATING  
★★★★☆  
Network Average: 2.8

LEVEL DESCRIPTION

4 4 - Learners engage in instructional activities, experiences, and interactions based on their individual needs and interests. Professional staff members consistently deliver instruction designed for learners to reach their potential.

3 3 - Most learners engage in instructional activities, experiences, and interactions based on their individual needs and interests. Professional staff members routinely deliver instruction designed for learners to reach their potential.

2 2 - Learners engage in instructional activities, experiences, and interactions based on needs and interests typical of most students. Professional staff members infrequently deliver instruction designed for learners to reach their potential.

1 1 - Instructional activities are primarily designed around curriculum objectives with little or no focus on learner needs and interests. Professional staff members rarely deliver instruction designed for learners to reach their individual potential.

Standard 22

**Instruction is monitored and adjusted to advance and deepen individual learners' knowledge and understanding of the curriculum.**

YOUR RATING  
★★★★☆  
Network Average: 2.7

LEVEL DESCRIPTION

4 4 - Professional staff members consistently monitor and adjust instruction based on each learner's response to instruction and achievement of desired learning targets. Professional staff members use a formal, systematic process for analyzing trend and current data to deepen each learner's understanding of content at increasing levels of complexity.

3 3 - Professional staff members regularly monitor and adjust instruction based on each learner's response to instruction and achievement of desired learning targets. Professional staff members routinely analyze trend and current data to deepen each learner's understanding of content.

2 2 - Professional staff members sometimes monitor and adjust instruction based on each learner's achievement of desired learning targets. Professional staff members sometimes analyze data to deepen each learner's understanding of content.

1 1 - Professional staff members rarely monitor and adjust instruction. Professional staff members rarely analyze data to deepen each learner's understanding of content.

**Professional staff members integrate digital resources that deepen and advance learners' engagement with instruction and stimulate their curiosity.**

YOUR RATING  
 ★★☆☆  
 Network Average: 2.8

LEVEL	DESCRIPTION
4	4 - Professional staff members seamlessly and deliberately integrate digital resources that add value to the learning process and encourage learners' active engagement in the learning process. Digital resources consistently support learners' pursuit of interests and deepen or extend curriculum topics to stimulate learners' curiosity.
3	3 - Professional staff members intentionally select and integrate digital resources that add value to the learning process and encourage learners' active engagement in the learning process. Digital resources routinely support learners' pursuit of interests and deepen or extend curriculum topics to stimulate learners' curiosity.
2	2 - Professional staff members occasionally select and integrate digital resources that add value to the learning process or encourage learners' active engagement in the learning process. Digital resources sometimes support learners' pursuit of interests and deepen or extend curriculum topics to stimulate learners' curiosity.
1	1 - Professional staff members select and integrate few or no digital resources or select digital resources that rarely add value to the learning process or encourage learners' active engagement in the learning process. Digital resources rarely support learners' pursuit of interests or deepen or extend curriculum topics to stimulate learners' curiosity.

Network Comparison for Engagement of Learning Standards

## Growth in Learning Standards

A good institution positively impacts learners throughout their journey of learning. A positive impact on the learner is reflected in readiness to engage in and preparedness for the next transition in their learning. Growth in learning is also reflected in learners' ability to meet expectations in knowledge and skill acquisition.

### Keys to Growth in Learning

Growth is evident when:

- Learners possess non-academic skills that ensure readiness to learn
- Learners' academic achievement reflects preparedness to learn
- Learners attain knowledge and skills necessary to achieve goals for learning

## Standard 24

**Leaders use data and input from a variety of sources to make decisions for learners' and staff members' growth and well-being.**

YOUR RATING  
★ ★ ★ ★  
Network Average: 2.9

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders consistently demonstrate skill and insight in considering a variety of information, choosing relevant and timely information, and interpreting data. Leaders make intentional decisions by consistently taking into account data and additional factors that have an impact on learners and staff members such as institution history, recent experiences, and future possibilities.
3	3 - Leaders regularly demonstrate skill and insight in considering a variety of information, choosing relevant and timely information, and interpreting data. Leaders make decisions by routinely taking into account data and additional factors that have an impact on learners and staff members such as institution history, recent experiences, and future possibilities.
2	2 - Leaders sometimes demonstrate skill and insight in considering and choosing information and interpreting data. Leaders make decisions that occasionally take into account data and additional factors that have an impact on learners and staff members such as institution history, recent experiences, and future possibilities.
1	1 - Leaders rarely demonstrate skill and insight in considering and choosing information and interpreting data. Leaders make decisions that rarely take into account data and additional factors that have an impact on learners and staff members such as institution history, recent experiences, and future possibilities.

## Standard 25

**Leaders promote action research by professional staff members to improve their practice and advance learning.**

YOUR RATING  
★ ★ ★ ★  
Network Average: 2.5

LEVEL	DESCRIPTION
-------	-------------

4	4 - Leaders intentionally create and preserve a culture that invites inquiry, reflection, and dialogue about instructional problems and issues relevant to the institution and/or individual learning environments. Professional staff members, as a group or as individuals, consistently engage in action research using an inquiry-based process that includes identifying instructional areas of improvement, collecting data, and reporting results to make informed instructional changes. Leaders provide and engage in learning opportunities customized for professional staff members about action research.
3	3 - Leaders regularly create and preserve a culture that invites inquiry, reflection, and dialogue about instructional problems and issues relevant to the institution and/or individual learning environments. Professional staff members, as a group or as individuals, routinely engage in action research using an inquiry-based process that includes identifying instructional areas of improvement, collecting data, and reporting results to make informed instructional changes. Leaders provide and engage in learning opportunities for professional staff members to implement action research.
2	2 - Leaders occasionally create and preserve a culture that invites inquiry, reflection, and dialogue about instructional problems and issues relevant to the institution and/or individual learning environments. Professional staff members, as a group or as individuals, sometimes engage in action research using an inquiry-based process that includes identifying instructional areas of improvement, collecting data, and reporting results to make informed instructional changes. Leaders provide and engage in some learning opportunities for professional staff members to implement action research.

1 - Leaders rarely create a culture that invites inquiry, reflection, and dialogue about instructional problems and issues relevant to the institution or learning environments. Professional staff members seldom engage in action research to make informed instructional changes. Leaders provide and engage in few or no learning opportunities for professional staff members about action research.

Standard 26

**Leaders regularly evaluate instructional programs and organizational conditions to improve instruction and advance learning.**

YOUR RATING  
  
 Network Average: 2.7

LEVEL DESCRIPTION

- 4 - Leaders consistently implement a documented process to determine the effectiveness of the institution's curriculum and instruction, including staffing and resources. Leaders use a formal, systematic process for analyzing current and trend data and stakeholder input to make decisions about retaining, changing, or replacing programs and practices.
- 3 - Leaders routinely implement a documented process to determine the effectiveness of the institution's curriculum and instruction, including staffing and resources. Leaders use analyzed current and trend data and stakeholder input to make decisions about retaining, changing, or replacing programs and practices.
- 2 - Leaders occasionally implement a process to determine the effectiveness of the institution's curriculum and instruction, including staffing and resources. Leaders sometimes use data and stakeholder input to make decisions about retaining, changing, or replacing programs and practices.
- 1 - Leaders rarely implement a process to determine the effectiveness of the institution's curriculum and instruction, including staffing and resources. Leaders seldom use data and stakeholder input to make decisions about retaining, changing, or replacing programs and practices.

Standard 27

**Learners' diverse academic and non-academic needs are identified and effectively addressed through appropriate interventions.**

YOUR RATING  
  
 Network Average: 2.9

LEVEL DESCRIPTION

- 4 - The institution consistently addresses the range of developmental, physical, emotional, and intellectual needs to support learners' ability to learn. Strategies and interventions for these needs are formally and systematically planned and implemented based on analyzed information, data, and instructional best practices to ensure learners' success.
- 3 - The institution routinely addresses the range of developmental, physical, emotional, and intellectual needs to support learners' ability to learn. Strategies and interventions for these needs are regularly planned and implemented based on analyzed information, data, and instructional best practices to ensure learners' success.
- 2 - The institution sometimes addresses the range of developmental, physical, emotional, and intellectual needs to support learners' ability to learn. Strategies and interventions for these needs are occasionally planned and implemented based on information, data, and instructional best practices to ensure learners' success.

- 1 - The institution rarely addresses the range of developmental, physical, emotional, and intellectual needs to support learners' ability to learn. Strategies and interventions for these needs are seldom planned and implemented based on information, data, or instructional best practices.

Standard 28

**With support, learners pursue individual goals including the acquisition of academic and non-academic skills important for their educational futures and careers.**

YOUR RATING  
  
 Network Average: 2.9

LEVEL DESCRIPTION

4 - Professional staff members consistently engage with learners to help them recognize their talents and potential and to identify meaningful, attainable goals that support academic, career, personal, and social skills. Learners consistently choose activities and monitor their own progress, demonstrating active ownership of their stated goals.

3 - Professional staff members regularly engage with learners to help them recognize their talents and potential and to identify meaningful, attainable goals that support academic, career, personal, and social skills. Learners routinely choose activities and monitor their own progress, demonstrating active ownership of their stated goals.

2 - Professional staff members sometimes engage with learners to help them recognize their talents and potential and to identify meaningful, attainable goals that support academic, career, personal, and social skills. Learners occasionally choose activities and monitor their own progress, demonstrating active ownership of their stated goals.

1 - Professional staff members rarely engage with learners to help them recognize their talents and potential and to identify meaningful, attainable goals that support academic, career, personal, and social skills. Learners do not choose activities or monitor their own progress toward goals.

Standard 29

**Understanding learners' needs and interests drives the design, delivery, application, and evaluation of professional learning.**

YOUR RATING  
  
 Network Average: 2.6

LEVEL DESCRIPTION

4 - Professional learning is learner-centered, customized around the needs of individual or groups of professional staff members, and focuses on improving pedagogical skills and knowledge to better address learners' needs and interests. A documented process to select, deliver, implement, and evaluate professional learning is being fully implemented and monitored for fidelity.

3 - Professional learning is learner-centered, designed around the principle that professional staff members need opportunities to focus on improving pedagogical skills and knowledge to better address learners' needs and interests. A documented process to select, deliver, implement, and evaluate professional learning is being fully implemented.

2 - Professional learning is occasionally learner-centered, designed around the principle that professional staff members need opportunities to focus on improving pedagogical skills and knowledge to better address learners' needs and interests. A documented process to select, deliver, implement, and evaluate professional

learning exists but is not fully implemented.

- 1 - Professional learning is rarely learner-centered and may or may not focus on improving pedagogical skills and knowledge to better address learners' needs and interests. A documented process to select, deliver, implement, and evaluate professional learning does not exist.

Standard 30

**Learners' progress is measured through a balanced system that includes assessment both for learning and of learning.**

YOUR RATING  
★ ★ ★ ★  
Network Average: 2.8

LEVEL DESCRIPTION

4	4 - Professional staff members and learners collaborate to determine learners' progress toward and achievement of intended learning objectives based on assessment data gathered through formal and informal methods. Assessment data are systematically used for ongoing planning, decision making, and modification of curriculum and instruction.
3	3 - Professional staff members and learners regularly use assessment data gathered through formal and informal methods to determine learners' progress toward and achievement of intended learning objectives. Assessment data are routinely used for ongoing planning, decision making, and modification of curriculum and instruction.
2	2 - Professional staff members occasionally use assessment data gathered through formal and informal methods to determine learners' progress toward and achievement of intended learning objectives. Assessment data are sometimes used for ongoing planning, decision making, and modification of curriculum and instruction.
1	1 - Professional staff members seldom use assessment data to determine learners' progress toward and achievement of intended learning objectives. Assessment data are rarely or inconsistently used for ongoing planning, decision making, and modification of curriculum and instruction.

Network Comparison for Growth in Learning Standards

# Insights from the Review

The evaluators engaged in professional discussions and deliberations about the effectiveness of the processes, programs, and practices within the institution to arrive at the findings of the report. Guided by evidence, the evaluators arrived at findings that will inform your institution's continuous improvement efforts. The findings are aligned to research-based criteria designed to improve student learning and organizational effectiveness.

The findings are organized into narratives around four Key Characteristics critical to the success of any educational institution: culture of learning, leadership for learning, engagement of learning, and growth in learning. The narratives also provide the next steps to guide your institution's improvement journey in its efforts to improve the quality of educational opportunities for all learners. The feedback provided in this Accreditation Engagement Review Report will assist your institution in reflecting on its current improvement efforts and adapting and adjusting your plans to continuously strive for improvement.

## Culture of Learning

**Silver Stage High School embraces the mission, purpose, and beliefs to guide the students' well-being as its utmost priority.** The mission statement has been reviewed, modified, and adapted to meet the needs of the students multiple times throughout the school's 24-year history. In 2022, the mission statement underwent a comprehensive evaluation, engaging all key stakeholders. Through in-depth discussions among students, parents, and staff, a consensus emerged to retain the existing mission statement established in 2012. The mission reads, "Providing a safe learning environment to gain college, career, and life skills for a successful future!" The mission statement has been reviewed annually since the 2012-2013 school year. The yearly reviews reaffirm that the mission statement is aligned with the school's vision and community values. The Nevada Climate Survey for students and staff shows that cultivating and sustaining a culture of inclusion, fairness, respect, and professional behavior is a priority at the school. Positive Behavior Intervention Strategies (PBIS) is in place to enable teachers to recognize students who demonstrate positive behaviors and reward them for their responsibility, organization, and great attitudes. The program inspires student and team improvement, competition,

camaraderie, and positive school culture. A full-time social worker and a safe school professional have been added to the institution's staff. These employees have helped build trust and positive relationships between students and adults. During interviews with administration and teacher reviews of stakeholder surveys, there is a need to strengthen parental and community engagement. The administration said they would like to increase involvement with community partners and parents by building relationships with trade unions, inviting businesses to help with school needs, and adding a family night to increase stakeholder involvement. The administration is encouraged to ensure parents and community partners are informed of all the opportunities and activities offered at the institution to allow maximum stakeholder involvement.

## Leadership for Learning

**The governing authority demonstrates a commitment to learners by collaborating with leaders to uphold the institution's priorities and to drive continuous improvement.** The governing authority and institutional leaders work in close partnership to align their roles and responsibilities in advancing school priorities. Their collaboration takes place where they share data and updates on school initiatives that align policies to support academic and operational goals. The school district's policies and decisions are regularly reviewed at the district and site levels to ensure an uncompromised commitment to learners and the institution's identified priorities. Over 30 policies have been revised during the fall of 2024. A district initiative supported by the institution is the implementation of The Portrait of a Learner (POL). POL is a framework that outlines the essential skills, knowledge, and habits that every learner should possess upon graduation. The administration has given professional development on these topics to educate staff members on the changes and new expectations. The administration cultivates effective individual and collective leadership among stakeholders. Collective leadership is evidenced by the fact that the teachers at the institution have developed and implemented success criteria. Teacher leaders then presented success criteria in a district-wide professional development in which site administration and all new teachers attended. The institution excels in fostering professional staff collaboration and collegiality. At the end of every

school day, the entire staff meets in what they call the "Huddle," a quick meeting to discuss any pressing issues or celebrate any accomplishments for that day. The institution ensures that staff members regularly engage in collaborative practices, such as department meetings for data analysis and unit progress discussions. This culture of collaboration is well-documented and supported by the Cognia™ Staff Survey, which indicates that faculty members value and benefit significantly from shared planning and professional development opportunities. Reviewing the data and discussions with teachers and administrators shows that a more consistent approach to analyzing MAP and ACT results is needed. The administration is encouraged to implement a system that integrates current test data into professional learning communities (PLCs) to be analyzed for trends and standards that need reteaching.

### **Engagement of Learning**

**The school promotes equitable opportunities for learners by providing a variety of curricula to enhance the learning process and promote the skills necessary to be successful beyond high school.** The institution takes much pride in utilizing success criteria. Of the staff, 100% are trained and monitored when using them in the classroom. The success criteria allow students to realize their learning potential by using metacognitive skills to determine their areas of strength and weakness with each standard being taught. Teachers and students use this to determine the next steps they need to take along their learning path. During student interviews, a question was asked of the students: "How do you know the curriculum is challenging enough to ensure that you will be ready for the next level?" A student responded as he pulled out a flow chart, "I use my success criteria flow chart to determine if I have mastered what I needed to learn." The school offers many classes and/or programs catering to student interests. These classes and programs are the regular core curriculum, Advanced Placement (AP), dual credit courses (DC), career and technical education (CTE), the JumpStart Program, and the LyOnline program. The CTE department offers certification programs in health, automotive technology, carpentry, culinary arts, early childhood education, and welding. Dual credit classes and the Jumpstart program facilitate college preparation by earning college credits before high school graduation. Students who complete the Jumpstart program graduate from high school with an associate's degree. During the school year 2023-2024, students completed 337 dual

enrollment courses, earning 1031 college credits, 21 AP classes, and 12 students earned CTE diplomas. Ninety-five percent of students have taken at least one dual enrollment course to earn college credit. The graduation rate is typically at or above 90% until 2024, when the graduation rate dipped to 84%. The institution offers many clubs and sports to explore students' non-academic interests. Sports include baseball, basketball, cross country, football, golf, soccer, track and field, volleyball, and wrestling. Clubs are offered in various areas, such as chess club, auto club, art club, National Junior Honor Society, and Student Council. A review of the evidence on student engagement and discussions with administration and teachers shows that students need to be more engaged in their learning. The teachers stated that the lessons must include a real-world application to be relevant to the learner. The administration is encouraged to research and implement professional development that provides teachers with the tools to construct lessons that will allow students to have a choice on how to demonstrate mastery in a real-world situation.

### **Growth in Learning**

**Leaders promote action research by professional staff members to improve their practice and advance learning.** Implementing success criteria has created a culture of inquiry, reflection, and dialogue about instruction. During teacher interviews, it was stated that teachers are constantly collaborating; teachers are often in another teacher's classroom observing during their prep, wanting to learn and enhance their teaching strategies. On Friday, set meeting times, professional development, and collaboration are held to work toward goals, all based on data, attendance, academics, and behavior. Teachers feel safe to take risks and try new ideas through action research projects while working on them with their peers. Administrators and teacher leaders coach and mentor teachers to help build capacity in the classroom. The adult learning environment at this institution has become one of its strengths. The institution has created a Nevada Educators Performance Framework (NEPF) Scoreboard to assist teachers in tracking their current teaching practices. This process is conducted several times a year, and then the documentation is reviewed to improve teaching practices. The institution uses state and national assessments like Measure of Academic Progress (MAP) data, Smarter Balanced Assessment (SBAC), WIDA, and the American College Testing Exam (ACT). These data are

analyzed and used to drive instruction. Measures of Academic Progress (MAP) test results are the primary source for teachers to use to analyze student performance and growth. The ACT exam has not been considered an important test by students, and the teachers do not utilize the results as much as they could to guide instruction. An after-school tutoring program is available for all students who need extra help. Students can also take advantage of an online resource that allows every student to connect with a live tutor 24/7 program named paper.com. Advisory is another time students can visit teachers to get extra instruction or do makeup work. Students benefit from weekly lessons from the Character Strong program. The program is designed to educate students on how to cope with anxiety, effectively deal with bullying, teach social and emotional learning (SEL) skills, and develop positive traits like kindness, responsibility, respect, and perseverance. Discussion with the administration and review of the evidence revealed a downward trend in standardized tests. The administration believes that the lack of consistently exposing teachers to current standardized test results to identify learning gaps and student apathy contributes to low test scores. The administration is encouraged to implement a system that integrates current test data into PLCs to be analyzed for trends and standards that need reteaching.

# Summary of Findings

The review process focused on establishing evidence of effective practice and performance of the institution in relation to the accreditation standards.

## Areas for Improvement

Using the information collected and reviewed, the evaluator identified the following Areas for Improvement that will help the institution improve. The Areas for Improvement will be revisited when the institution conducts Cognia's Progress Report.

---

### 1 **Develop and implement a system to increase stakeholders' engagement with the institution.**

Standard 3

RATIONALE If the institution enhances stakeholder engagement by broadening its focus to include community involvement in non-academic areas, then it will strengthen its institutional culture and resource network, thereby supporting student and community growth.

---

### 2 **Engage stakeholders in the continuous improvement process of analyzing current test results to further the institution's improvements.**

Standard 7 Standard 24

RATIONALE If leaders provide teachers with current and relevant test data, then teachers may be able to increase the effectiveness of their lessons to support learning.

---

### 3 **Develop and implement professional development on building lessons that offer student choice to promote student engagement by connecting curriculum to real-world applications.**

Standard 18

RATIONALE When leaders and staff develop learning conditions to engage students, then learners may be more engaged in the learning process.

---

# Accreditation Status and Index of Education Quality®

Cognia will review the results of the Accreditation Engagement Review to make a final determination concerning the accreditation status of your institution based on these findings. Cognia provides the Index of Education Quality (IEQ) as a holistic measure of overall performance.

Your Institution's IEQ	SCORE	DESCRIPTION
<b>301</b> Cognia's IEQ Network Average: <b>296</b>	<b>Below 220</b>	An IEQ score below 220 indicates that the institution has several Areas for Improvement and should focus their improvement efforts on those areas and the related Standards and/or Assurances. The institution will be required to present evidence of improvement to Cognia within one year through a Progress Monitoring Review. Additional Progress Reports may be required if satisfactory improvement is not achieved.
	<b>220 - 300</b>	An IEQ in the range of 220-300 suggests the institution has some Areas for Improvement and may include one or more Noteworthy Practices. Institutions must address the Areas for Improvement and provide evidence of actions taken and results to Cognia in a required Progress Report due three years following the review. Additional progress monitoring may be required if satisfactory improvement is not achieved.
	<b>Above 300</b>	An IEQ above 300 indicates the institution meets Cognia's expectations for accreditation that include one or more Areas for Improvement and may include one or more Noteworthy Practices. Institutions must address the Areas for Improvement and provide evidence of actions taken and results to Cognia in a required Progress Report due three years following the review. Additional progress monitoring may be required if satisfactory progress is not achieved.

## Your Next Steps

Accreditation is a continuous improvement process. The Engagement Review provides independent, objective guidance in relation to the Performance Standards and the institution's improvement journey. Upon receiving the Accreditation Engagement Review Report, the institution is expected to implement the following steps:

- Review and share the findings in this report with stakeholders.
- Use the findings from the report to guide and strengthen your institution's improvement efforts.
- Celebrate the successes noted in the report.
- Continue the improvement journey.
- Report to Cognia on your progress toward improvement.

# Evaluator Roster

The Engagement Review is conducted by professionals with varied backgrounds and professional experiences. All evaluators complete Cognia training and elect certification to ensure knowledge and understanding of the Cognia tools and processes. The following professional(s) served on the Engagement Review:

---

EVALUATOR NAME	BRIEF BIOGRAPHY
<b>John Scott</b> <b>Lead Evaluator</b>	John Scott retired from education after serving the Las Vegas community for 33 years. To continue his connection with schools, he joined the Cognia team in 2022. Mr. Scott serves as a regional accreditation evaluator for the Pacific region providing personalized service and guidance to institutions as they navigate the accreditation process. During his 33 years, he served the Las Vegas community as a teacher, athletic coach, teacher on special assignment, dean of students, assistant principal, and principal. Mr. Scott retired after he spent the last four years of his career opening a new charter school, rated as one of the top charter schools in Las Vegas. Mr. Scott earned a Bachelor of Arts from West Liberty State College and a Master of Education from The Pennsylvania State University.
