President’s Report - October 15, 2025

Hello and good evening Rye Neck.

Rye Neck is a close-knit school community that values local and global voices. We are committed to providing a learning journey that inspires an adaptive mindset and enables all learners to thrive academically and personally.

This mission statement was created in November of 2023 at the kickoff meeting to craft what eventually became Rye Neck’s official strategic plan. In that meeting, numerous stakeholders - everyone from administrators, teachers, and parents, to senior year students and community leaders - assembled to participate in an important undertaking that would assess Rye Neck’s school climate, communications, academic programming, and social emotional skills amongst other things.

In addition to creating a strong and concise mission statement that summarizes the aims and values of Rye Neck, the committee worked together to create the three goals that we will celebrate tonight.

Each goal has thoughtful co-chairs and team leaders who work hard to create detailed action plans with measurable milestone indicators. Together their work is guiding how we will develop and support our learners over the next several years as well as inform future decisions that will impact all levels of our district. The board and district are sincerely grateful to everyone for dedicating their time, engagement and passion to Rye Neck’s strategic plan.

Now to you Mr. Burke…
