# Cheney Middle School

## SCHOOL IMPROVEMENT PLAN

---

### STUDENT OUTCOMES

1. We will see students working through conflict resolution on their own, and we will hear a more kind dialogue in the hallways. Less shouting out negative comments to people the kids don't know.
2. If we're successful with this goal, we should be able to have a cohort of students that can support peer to peer conflict resolution.

### STUDENT OUTCOMES

1. We'll be able to see students using different strategies to support their thinking. We will hear them talk about it as well.
2. If we're successful with this goal, it seems we should see more students persevering through academic challenges, and ultimately more students performing at or above grade level.

### STUDENT OUTCOMES

1. Students will resolve peer-to-peer conflict using healthy, productive, hands-off strategies.
2. The playground will be a joyful place for students to play and interact.
